## STATEMENT OF AIMS

*Transnational Environmental Law (TEL)* is a peer-reviewed journal for the study of environmental law and governance beyond the state. It approaches legal and regulatory developments with an interest in the contribution of non-state actors and an awareness of the multi-level governance context in which contemporary environmental law unfolds.

*TEL* offers a forum for rigorous analysis and discussion of the impacts of globalization on complex environmental risks and norms. It welcomes scholarship that enriches our understanding of contemporary environmental law through comparative and cutting-edge interdisciplinary analysis. *TEL's* scope is broadly conceived in terms of disciplinary focus: its pages are open to scholarly contributions covering a wide range of environmental issues, including climate change, biodiversity, emerging technologies, industrial pollution and waste management. *TEL* also promotes the exploration of the evolving dynamics between environmental law and other legal disciplines (including but not limited to trade and competition law, financial law and human rights).

*TEL* strives for a new generation of environmental scholarship that will bridge geographical boundaries, scholarly styles and generations. *TEL* encourages the integration of theoretical and practical legal perspectives on current environmental issues, and aims to deliver scholarship of high salience to academics and practitioners alike.

# TRANSNATIONAL ENVIRONMENTAL LAW

VOLUME 8 ISSUE 2 JULY 2019

## *Contents*

### EDITORIAL

- 209–215 Transnational Environmental Law across the Spectrum of Development  
*Thijs Etty and Veerle Heyvaert, Editors-in-Chief*  
*Cinnamon Carlarne, Bruce Huber, Jacqueline Peel and Josephine van Zeben,*
