

WEED SCIENCE

WEED SCIENCE

Published six times a year by the Weed Science Society of America

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Muthukumar V Bagavathiannan, Texas A&M, College Station, TX 77843 (2015)

Nathan Boyd, University of Florida, Wimauma, FL 33598 (2021)

Ian Burke, Washington State University, Pullman, WA 99164 (2019)

Carlene Chase, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)

Bhagirath Singh Chauhan, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)

Sharon Clay, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)

Timothy Grey, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)

Erin Haramoto, University of Kentucky, Lexington, KY 40506 (2020)

Prashant Jha, Iowa State University, Ames, IA 50011 (2017)

Mithila Jugulam, Kansas State University, Manhattan, KS 66506 (2019)

Vipan Kumar, Kansas State University, Hays, KS 67601 (2020)

Ramon Leon, Department of Crop and Soil Sciences, North Carolina State University, Raleigh, NC 27695 (2016)

Sara Martin, Ag Canada, Ottawa, Canada (2018)

Chris Preston, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)

Dean Riechers, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)

Hilary Sandler, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)

Debalin Sarangi, University of Wyoming, Powell, WY 82435 (2020)

Steven Seefeldt, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)

Patrick J. Tranel, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)

Te-Ming Paul Tseng, Mississippi State University, Mississippi State, MS 39762 (2019)

Martin M. Williams II, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

Chenxi Wu, Crop Science Division, Plant Biotechnology – Research & Development, Bayer U.S., Chesterfield, MO 63017 (2019)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Science (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Science publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$443.00; UK £308.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

Photos and chlorophyll fluorescence images of weed leaf punches before and after herbicide treatments from a rapid non-destructive assay for herbicide resistance detection. Photo collage by Dr. Chenxi Wu.

WEED SCIENCE

Journal of the Weed Science Society of America

Volume 69 Number 3 May 2021

REVIEW

- Interference and management of herbicide-resistant crop volunteers. *Amit J. Jhala, Hugh J. Beckie, Thomas J. Peters, A. Stanley Culpepper and Jason K. Norsworthy* 257

RESEARCH ARTICLES

- A nondestructive leaf-disk assay for rapid diagnosis of weed resistance to multiple herbicides. *Chenxi Wu, Vijaya Varanasi and Alejandro Perez-Jones* 274
- Resistance to bixlozone and clomazone in cross-resistant rigid ryegrass (*Lolium rigidum*) populations from southern Australia. *David J. Brunton, Gurjeet Gill and Christopher Preston* 284
- Target-site basis for fomesafen resistance in redroot pigweed (*Amaranthus retroflexus*) from China. *Long Du, Xiao Li, Xiaojing Jiang, Qian Ju, Wenlei Guo, Lingxu Li, Chunjuan Qu and Mingjing Qu* 290
- Two-tier witchweed (*Striga hermonthica*) resistance in wild pearl millet (*Pennisetum glaucum*) 29Aw. *Olivier Dayou, Willy Kibet, Patroba Ojola, Prakash Irappa Gangashetty, Susann Wicke and Steven Runo* 300
- Associations between population epigenetic differentiation and environmental factors in the exotic weed mile-a-minute (*Mikania micrantha*). *Jin Shen, Zhen Wang, Yingjuan Su and Ting Wang* 307
- Effect of emergence time on growth and fecundity of redroot pigweed (*Amaranthus retroflexus*) and slender amaranth (*Amaranthus viridis*): emerging problem weeds in Australian summer crops. *Asad M. Khan, Ahmadreza Mobli, Jeff A. Werth and Bhagirath S. Chauhan* 333
- Modeling emergence of sterile oat (*Avena sterilis* ssp. *ludoviciana*) under semiarid conditions. *Carlos Sousa-Ortega, Aritz Royo-Esnaol, Iñigo Loureiro, Ana I. Marí, Juan A. Lezáun, Fernando Cordero, Milagros Saavedra, José A. Paramio, José L. Fernández, Joel Torra and José M. Urbano* 341
- Geographic differentiation of adaptive phenological traits of barnyardgrass (*Echinochloa crus-galli*) populations. *Zdenka Martinková, Alois Honěk, Stano Pekár and Leona Leišova-Svobodová* 353
- Seed longevity and seedling emergence behavior of wild oat (*Avena fatua*) and sterile oat (*Avena sterilis* ssp. *ludoviciana*) in response to burial depth in eastern Australia. *Gulshan Mahajan and Bhagirath S. Chauhan* 362
- Effect of soybean crop structure on large crabgrass (*Digitaria sanguinalis*) growth and seed dormancy. *Fernando H. Oreja, Diego Batlla and Elba B. de la Fuente* 372
- Species identification and morphological trait diversity assessment in ryegrass (*Lolium* spp.) populations from the Texas Blackland Prairies. *Aniruddha Maity, Vijay Singh, Matheus Bastos Martins, Paulo José Ferreira, Gerald Ray Smith and Muthukumar Bagavathiannan* 379
