WEED TECHNOLOGY

Published six times a year by the Weed Science Society of America

Jason K. Norsworthy, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Technology* include all aspects of weed management in agricultural, horticultural, ornamental, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; weed resistance to herbicides; herbicide resistant crops; biological weed control agents; new weed management techniques; impacts of weed competition with crops; vegetation management with plant growth regulators; weed surveys; weed-related grower surveys; education; and extension. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Jason Bond, *Stoneville, MS* (2010)

Kevin Bradley, *Columbia, MO* (2012)

Barry Brecke, *Jay, FL* (2013)

Peter Dittmar, *Gainesville, FL* (2016)

Aaron Hager, *Urbana, IL* (2012)

Charles Geddes, *Lethbridge, AB* (2022)

Katherine Jennings, *Raleigh, NC* (2021)

Prashant Jha, *Ames, IA* (2016)

Amit Jhala, *Lincoln, NE* (2018)

David Johnson, *Des Moines, IA* (2019)

William Johnson, *West Lafayette, IN* (2007)

Vipan Kumar, *Hays, KS* (2020)

Drew Lyon, *Pullman, WA* (2018)

Robert Nurse, *Guelph, ON* (2016)

Sandeep Rana, *Galena, MD* (2021)

Darren Robinson, *Ridgetown, ON* (2008)

Larry Steckel, *Jackson, TN* (2007)

Daniel Stephenson, *Alexandria, LA* (2013)

Michael Walsh, *Crawley, Australia* (2016)

Eric Webster, *Laramie, WY* (2018)

Rodrigo Werle, *Madison, WI* (2022)

R. Joseph Wuerffel, *Vero Beach, FL* (2020)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Technology (ISSN 0890-037X) is published by the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234. It is published bimonthly, one volume per year, six issues per year beginning in February.

Membership includes online access to *Weed Technology*, *Weed Science*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Technology* subscription page at <https://www.cambridge.org/core/journals/weed-technology/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Technology publishes six times a year in February, April, June, August, October, and December. Annual institutional electronic subscription rates: US \$403.00; UK £280.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/wt>). Authors are asked to pay \$85 for the first page and \$65 per page thereafter as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Technology* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique propagative materials they might possess with other workers in that area who request such materials for the purpose of scientific research.

WEED TECHNOLOGY

VOLUME 36

JULY–AUGUST 2022

NUMBER 4

• RESEARCH ARTICLES

- Smooth scouringrush (*Equisetum laevigatum*) control with glyphosate in eastern Washington
Drew J. Lyon and Mark E. Thorne 457
- Effect of 2,4-D formulation on volatility under field conditions
Thomas C. Mueller, Lawrence E. Steckel and Avat Shekoofa 462
- Optimizing weed control using dicamba and glufosinate in eligible crop systems
Grant L. Priess, Michael P. Popp, Jason K. Norsworthy, Andy Mauromoustakos, Trenton L. Roberts and Thomas R. Butts 468
- The impact of electrocution treatments on weed control and weed seed viability in soybean
Haylee Schreier, Mandy Bish and Kevin W. Bradley 481
- Palmer amaranth control in furrow-irrigated rice with florypyrauxifen-benzyl
James W. Beesinger, Jason K. Norsworthy, Thomas R. Butts and Trenton L. Roberts 490
- Benzobicyclon for weedy rice control in quizalofop- and imidazolinone-resistant rice systems
Jake A. Patterson, Jason K. Norsworthy, Thomas R. Butts and Edward E. Gbur 497
- Cereal rye response to eight commonly used wheat herbicides
Lavesta C. Hand, Taylor M. Randell and A. Stanley Culpepper 506
- A comparative evaluation of convolutional neural networks, training image sizes, and deep learning optimizers for weed detection in alfalfa
Jie Yang, Muthukumar Bagavathiannan, Yundi Wang, Yong Chen and Jialin Yu 512
- Effective dose of atrazine required to complement tolypyralate for annual weed control in corn
John C. Fluttert, Nader Soltani, Mariano Galla, David C. Hooker, Darren E. Robinson and Peter H. Sikkema 523
- Preemergence and postemergence spiny amaranth (*Amaranthus spinosus*) and common lambsquarters (*Chenopodium album*) control in lettuce on organic soils
D. Calvin Odera and Alan L. Wright 531
- Dose-response of two Jack O'Lantern pumpkin cultivars to fomesafen applied preemergence
Jeanine Arana, Stephen L. Meyers, William G. Johnson and Wenjing Guan 537
- Intercropping sweet corn with summer savory to increase weed suppression and yield
Ruhollah Naderi, Farzad Bijani, Philip S. R. Weyl and Heinz Mueller-Schaerer 544
- Tall fescue interseeding and postemergence herbicides for false-green kyllinga (*Kyllinga gracillima*) control in turfgrass
Matthew T. Elmore and Daniel P. Tuck 548
- Evaluation of amino acid-inhibiting herbicide mixtures for hair fescue (*Festuca filiformis*) management in lowbush blueberry
Scott N. White 553
- Evaluations of alternative herbicides to glyphosate for wilding pine control during forestry site preparation in the southeastern United States
David C. Clabo and E. David Dickens 561
- Hazelnut growth and weed control in response to selected preemergence herbicides
Rafael M. Pedroso and Marcelo L. Moretti 570
- Hazelnut tolerance to basal-directed applications of clopyralid and quinclorac
Rafael M. Pedroso and Marcelo L. Moretti 576
- ## • REVIEW
- Weed management in rainfed lowland rice ecology in Nigeria – challenges and opportunities
Oyebanji O. Alagbo, Oluyemisi A. Akinyemiju and Bhagirath S. Chauhan 583
- ## • NOTE
- Evaluation of sulfentrazone and S-metolachlor in brassica vegetables
John S. Rachuy and Steven A. Fennimore 592
