"A People Born to Slavery"

Russia in Early Modern European Ethnography, 1476–1748

Marshall T. Poe

"As Marshall Poe's well-written book both criticizes previous histories and shows in what ways they are useful, it also goes beyond the scholarship on early modern Russia and deftly asks to what extent Russia's political culture is distinct from that of Western Europe. . . . [A] significant contribution to our understanding of Russia, both early modern and modern."

Antler on the Sea

The Yup'ik and Chukchi of the Russian Far East

Anna M. Kerttula

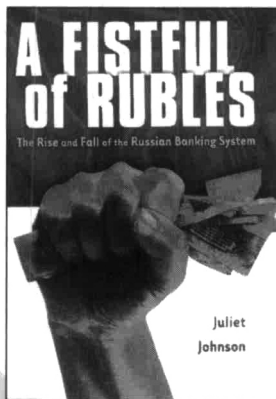

"This much anticipated book skillfully combines a rich community study with an ethnohistoric treatment of life in a Soviet village during the crucial years 1989–1991. *Antler on the Sea* provides fascinating material on the everyday strategies that Chukchi, Yup'ik, and Newcomers have employed in constructing otherness within an arena of contested and shifting symbolic values."

Russia and Soul

An Exploration

Dale Pesmen

This ethnography of everyday life in contemporary Russia is also an examination of discourses and practices of "soul" or *dusha*. Pesmen focuses on "soul" in part as what people chose to do and how they did it, especially practices considered "definitive" of Russians. Pesmen's attention to *dusha* gives her a multifaceted perspective on Russian culture and society and informs her rich portrayal of life in a Russian city at a historically critical moment. \$45.00 cloth, \$19.95 paper

Castration and the Heavenly Kingdom

A Russian Folktale

Laura Engelstein

Of the many sects that broke from the official Russian Orthodox church in the eighteenth century, one was universally despised. Its members were peasants from the Russian heartland skilled in the arts of animal husbandry who turned their knives on themselves to become "eunuchs for the kingdom of heaven's sake." They were known as *Skopty* (the self-castrated). In a major feat of historical reconstruction, Laura Engelstein tells the sect's astonishing tale. 30 photos, 1 color illustration, 8 drawings. \$32.50

Of Religion and Empire

Missions, Conversion, and Tolerance in Tsarist Russia

EDITED BY
Robert Geraci
AND Michael
Khodarkovsky

Russia's ever-expanding imperial boundaries encompassed diverse peoples and religions. Yet Russian Orthodoxy remained inseparable from the identity of the Russian empire-state, which at different times launched conversion campaigns not only to "save the souls" of animists and bring deviant Orthodox groups into the mainstream, but also to convert the empire's numerous Muslims, Buddhists, Jews, Catholics, and Uniates. This book is the first to investigate the role of religious conversion in the long history of Russian state building. 14 photos, 1 map. \$49.95 cloth, \$21.95 paper

NIKITA KHRUSHCHEV AND THE CREATION OF A SUPERPOWER

Sergei N. Khrushchev, translated by Shirley Benson

"Sergei Khrushchev is an intelligent observer; he had many opportunities to converse with his father, he overheard his father's discussions with others, and kept a record of the events which he had witnessed. He writes straightforward prose, without literary pretensions. The most valuable information which this book provides bears on something that for all its importance rarely emerges from documents, namely attitudes and ambience—the imponderables that determine how statesmen act."

The Land Question in Ukraine and Russia

Stephen K. Wegren (\$7.50)

In the Soviet period, Ukraine and Russia had similar agricultural systems. During the 1990s, however, the two diverged, as Russia pursued neo-liberal reforms while Ukraine maintained the Soviet system of agriculture. With new agrarian reforms introduced in Ukraine in late 1999 and into 2000, Ukraine may pass Russia, although significant obstacles remain.

Nationalism, Culture, and Religion in Croatia since 1990

Vjeran Pavlaković, editor (\$7.50)

Far from being culturally homogeneous, Croatia is home to alternative ethnic, religious, and popular cultural currents, as Vjeran Pavlaković, Vjeko Perica, and Gordana Crnković show in successive chapters. Finally, there is the problematic Tudjman legacy, which, as Sabrina P. Ramet argues in an afterword, combines both positive and negative elements.

Russian Policy Toward the Middle East under Yeltsin and Putin from 1991 to 2000

Robert O. Freedman (\$7.50)

Given its present greatly weakened geopolitical position, Moscow has had to reorient its policy toward the Middle East. Russian policy has had a special focus on Iran and Turkey, has sought to improve relations with Iraq, and has even developed close ties with Israel.

Statistical Falsification in the Soviet Union: A Comparative Case Study of Projections, Biases, and Trust

Mark B. Tauger (\$7.50)

This paper evaluates the Soviet system of biological yield in a detailed comparative perspective. Based on a wide range of sources, the paper is a valuable case study of the early Stalin years.

Postcommunism and the Theory of Democracy

Richard D. Anderson, Jr., M. Steven Fish,
Stephen E. Hanson, and Philip G. Roeder

Why did the wave of democracy that swept the former Soviet Union and Eastern Europe starting more than a decade ago develop in ways unexpected by observers who relied on existing theories of democracy? In *Postcommunism and the Theory of Democracy*, four distinguished scholars conduct the first major assessment of democratization theory in light of the experience of postcommunist states. They not only apply theory to practice, but using a wealth of empirical evidence, draw together the elements of existing theory into new syntheses.

Dr. Király's book describes 132 years of Hungary's history and explains the causes and effects of ten changes of regimes. During the first five decades, Habsburg bureaucrats made decisions on Hungary's foreign policy and most of her economy. After 1939, Nazis dictated policies, occupied the country, and superimposed a Nazi regime. From 1944, the Soviet Union occupied and ruled Hungary for more than half a century. Only in 1990 did Hungary enjoy full sovereignty with complete freedom for her citizens. Democracy prevails in Hungary 2000. Dr. Király was an eyewitness and/or participant (as a high military or government official) for almost half the period under consideration.

The question of national identity is central to the future of Russia. In this analysis, which spans three centuries of Russian cultural history, Vera Tolz places post-communist Russia in a broad historical background. unique multi-ethnic community; and Russians as members of the community of Eastern Slavs.
