Use of an Emergency Medical Pictorial Communication Book During Simulated Disaster Conditions—ERRATUM

S. Behar, R. Benson II, A. Kurzweil, C. Azen, and A.L. Nager

doi:10.1017/dmp.2013.86, Published by Cambridge University Press, 20 August, 2013.

In “Use of an Emergency Medical Pictorial Communication Book During Simulated Disaster Conditions” (originally published online August 20, 2013) an error regarding “Figure 2 – Percent Rates of Question Responses Marked ‘Unable to Obtain Information’” appeared. The legend variables corresponded incorrectly to the chart. ‘MEC book’ correctly should correspond with the darker colour;

‘No MEC book’ should correspond with the lighter colour. The author regrets this error.
