

## Index of Subjects

- Adenovirus. recognition of, types in faecal samples by Southern hybridization in South Australia, 603
- Aeromonas caviae*, characterisation of haemolytic activity from, 291
- Astrovirus. prevalence of human, serotypes in the Oxford region 1976–92. with evidence for two new serotypes, 187
- Bluetongue virus. distribution of, in Turkey, 1978–81, 623
- Borrelia burgdorferi*, comparison in the immunological properties of, isolates from *Ixodes ricinus* derived from three endemic areas in Switzerland, 533
- Botulism. landfill sites, and gulls, 385
- Campylobacter. false positive legionella serology in, infection: campylobacter serotypes, duration of antibody response and elimination of cross-reactions in the indirect fluorescent antibody test, 347
- Campylobacter jejuni*, immunoglobulin A antibodies directed against, flagellin present in breast-milk, 359
- Candidosis. a study of a hospital cluster of systemic, using DNA typing methods, 393
- Catheter. incidence and nature of peritoneal, biofilm determined by electron and confocal laser scanning microscopy, 551
- Cholera. epidemic, in Ecuador; multidrug-resistance and transmission by water and seafood, 1
- Conjunctival sac, an investigation of colonization of the, of sheep by bacteria and mycoplasmas, 561
- Cystic fibrosis. epidemiology of *Staphylococcus aureus* in patients with, 489
- Diphtheria. measurement of, and tetanus antitoxin in blood samples collected on filter paper disks, 161
- Escherichia coli* O157. an outbreak of, associated with a children's paddling pool, 441
- Escherichia coli*, apramycin-resistant, isolated from pigs and a stockman, 473
- Escherichia coli*, bacterial flora of Tasmanian SIDS infants with special reference to pathogenic strains of, 275
- Escherichia coli*, prospective study of verocytotoxin-producing, enteroaggregative and diffusely adherent, in different diarrhoeal states, 63
- Escherichia coli*, ribotyping as an epidemiologic tool for, 263
- Escherichia coli*, sequence heterogeneity of the *eae* gene and detection of verotoxin-producing, using serotype-specific primers, 449
- Foot-and-mouth disease. analysis of mixed, virus infections in Saudi Arabia: prolonged circulation of an exotic serotype, 201
- Foot-and-mouth disease. genetic relationships between, type Asia 1 viruses, 213
- Gastrointestinal diseases. community-based study of the incidence of, in The Netherlands, 481
- Helicobacter pylori*, molecular typing of, isolates from asymptomatic, ulcer and gastritis patients by urease gene polymorphism, 151
- Hepatitis B. seroprevalence of, and C in a Merseyside hospital for the mentally handicapped, 195
- Hepatitis C. seroprevalence of hepatitis B and, in a Merseyside hospital for the mentally handicapped, 195
- Hepatitis C virus. risk factors for, infection. A case-control study of blood donors in the Trent Region (UK), 595
- Influenza. antigenicity and immunogenicity of equine, vaccines containing a Carbomer adjuvant, 421

- Legionnaires' disease, fatal nosocomial: relevance of contamination of hospital water supply by temperature-dependent buoyancy-driven flow from spur pipes, 513
- Legionnaires' disease, nosocomial, in England and Wales, 1980–92, 329
- Legionellaceae in the potable water of Nova Scotia hospitals and Halifax residences, 143
- Legionella, false positive, serology in campylobacter infection: campylobacter serotypes, duration of antibody response and elimination of cross-reactions in the indirect fluorescent antibody test, 347
- Leptospirosis, seroprevalence of, in a rural flood prone district of Bangladesh, 527
- Listeria spp., a comparison of aerosol and intragastric routes of infection with, 69
- Lyme disease: a search for a causative agent in ticks in south-eastern Australia, 375
- Measles, household-acquisition of, and illness severity in an urban community in the United States, 569
- Measles, long-term survival in trial of medium-titre Edmonston–Zagreb, vaccine in Guinea-Bissau: five-year follow-up, 413
- Measles vaccine: a 27-year follow-up, 409
- Meningococcal disease, smoking, the environment and: a case control study, 315
- Meningococcal, patient and strain characteristics in relation to the outcome of, disease: a multivariate analysis, 115
- Mycobacterium avium*, subtyping of, complex (MAC) isolates by thin-layer chromatography – distribution of subtypes from patients with AIDS compared with clinically non-significant isolates, 543
- Rinderpest, the detection of antibodies against peste des petits ruminants virus in cattle, sheep and goats and the possible implications to, control programmes, 225
- Rotaviruses, survey on the distribution of the gene 4 alleles of human, by polymerase chain reaction, 615
- Rubella, a model-based design of a vaccination strategy against, in a non-immunized community of São Paulo State, Brazil, 579
- Salmonella bareilly*, bacteriophage typing in, 45
- Salmonella enteritidis*, dose-response effects in an outbreak of, 13
- Salmonella enteritidis*, use of plasmid profile typing for surveillance of, phage 4 from humans, poultry and eggs, 25
- Salmonella typhi*: insertion sequence IS200 fingerprinting of, an assessment of epidemiological applicability, 253
- Serratia marcescens*, aminoglycoside resistance patterns of, strains of clinical origin, 125
- Shigella, *in vivo* R-plasmid transfer in a patient with a mixed infection of, dysentery, 247
- Shigella sonnei*, an outbreak of diarrhoeal disease attributed to, 235
- Staphylococci, some properties of coagulase-negative, isolated from cases of ovine mastitis, 171
- Staphylococcus aureus*, a double outbreak of exfoliative toxin-producing strains of, in a maternity unit, 103
- Staphylococcus aureus*, an additional set of phages to characterize epidemic methicillin-resistant, strains from Spain (1989–92), 299
- Staphylococcus aureus*, cell surface hydrophobicity and adherence to extra-cellular matrix proteins in two collections of methicillin-resistant, 307
- Staphylococcus aureus*, changing patterns among the subgroups of strains of, of phage group II in Danish hospitals from 1961 to 91, 81
- Staphylococcus aureus*, clonal study of enterotoxin-B producing strains of, 501
- Staphylococcus aureus*, epidemiology of, in patients with cystic fibrosis, 489
- Staphylococcus aureus*, genomic fingerprints of, of bovine origin by polymerase chain reaction-based DNA fingerprinting, 177
- Staphylococcus aureus*, ribotyping of: an assessment using well-defined strains, 93
- Systemic Lupus Erythematosus, host–microflora interaction in, (SLE): colonization resistance of the indigenous bacteria of the intestinal tract, 367
- Tetanus, measurement of diphtheria and, antitoxin in blood samples collected on filter paper disks, 161

Toxoplasmosis, the diagnosis of, using IgG avidity. 399

*Vibrio cholerae* O139, an epidemic of cholera due to, in Dhaka, Bangladesh: clinical and epidemiological features, 463

*Vibrio vulnificus*, seasonal variations in the occurrence of, along the Dutch coast. 285

*Yersinia enterocolitica*, sources of sporadic, infections in Norway: a prospective case-controlled study. 133
