Case no.

- 3211 CLIONIDAE d'Orbigny, 1851 (Porifera, Hadromerida): proposed emendment of spelling to CLIONAIDAE to remove homonymy with CLIONIDAE Rafinesque, 1815 (Mollusca, Pteropoda).
Abstract. The purpose of this application, under Articles 29 and 55.3.1 of the Code, is to remove homonymy between the family names CLIONIDAE Rafinesque, 1815 (Mollusca) and CLIONIDAE d'Orbigny, 1851 (Porifera) by changing the spelling of the junior homonym. It is proposed that the entire name *Cliona* Grant, 1826 (Porifera) be used to form CLIONAIDAE, leaving the stem of the senior homonym (based on the name *Clione* Pallas, 1774, Mollusca) unchanged. *Clione* Pallas, 1774 and *Clio* Linnaeus, 1767 are respectively the type genera of CLIONIDAE Rafinesque, 1815 (Mollusca) and CLIOIDAE Jeffreys, 1869 (Mollusca).
- 3262 *Nautilus spengleri* Gmelin, 1791 (Foraminiferida): proposed conservation of the usage of the specific name by designation of a neotype. W. Renema & J. Hohenegger.
- 3263 *Octopus hummelincki* Adam, 1936 (Mollusca, Cephalopoda): proposed conservation of the specific name. I.G. Gleadall.
