

Combinatorics, Probability & Computing

Editor-in-Chief: Béla Bollobás

Managing Editors: Paul Balister, Imre Leader, Rob Morris,
Oliver Riordan

SPECIAL ISSUE Part I

Honouring the
Memory of
Philippe Flajolet

Guest Editors
Nicolas Broutin
James Allen Fill
Markus Nebel
Mark Daniel Ward

The graphic is divided into three main sections. On the left is a 3D plot of a colorful surface with a rainbow gradient, set against a black background. On the right is a flowchart with three rounded rectangular boxes connected by downward arrows. The top box contains the formula $D_M = \text{SET}(\text{CYC}_{>M}(\mathbf{Z}))$. The middle box contains the formula $D_M(z) = \frac{e^{-z-z^2/2-\dots-z^M/M}}{1-z}$. The bottom box contains the formula $N[z^M]D_M(z) \sim \frac{N!}{e^{HM}}$. Below the flowchart is a large, complex geometric pattern of black and white triangles and polygons, with a small red triangle in the bottom right corner.

EDITOR-IN-CHIEF

BÉLA BOLLOBÁS: Trinity College, Cambridge CB2 1TQ and Department of Mathematical Sciences, University of Memphis, Memphis, TN 38152, USA, Email: B.Bollobas@dpmms.cam.ac.uk and Email: bollobas@msci.memphis.edu

MANAGING EDITORS

PAUL BALISTER: Department of Mathematical Sciences, University of Memphis, Memphis, TN 38152, USA, Email: pbalistr@memphis.edu
