

THE W. AND S. TUKE PRIZE ESSAY.

EXTENSION OF TIME.

Some of the descendants of WILLIAM and SAMUEL TUKE (the former of whom proposed the establishment of the York Retreat in 1792, and the latter wrote the "Description" of the humane system of treatment commenced there) having placed at the disposal of the Medico-Psychological Association the sum of One Hundred Guineas, the Association offers a prize of this amount for

"The best series of original Cases and Commentary, illustrative of the Somatic Etiology of various Forms of Insanity, accompanied, when possible, in fatal cases, by reports of post-mortem examinations and microscopical preparations—their bearing on the symptoms being pointed out."

Cases not seen by the writer may be cited, but must be distinguished from those actually witnessed by himself.

The W. and S. TUKE PRIZE is open to all without restriction as to country, profession, &c., but the right is reserved to withhold it, should there be no essay of sufficient merit. Essays, to be written in English, and not in the author's handwriting, to be sent in a sealed envelope, bearing the motto of the essay, containing the name of the writer, to the undersigned, not later than June 30th, 1877. The microscopical preparations, but not the essay, to belong to the Association.

W. RHYS WILLIAMS, M.D.,

Bethlem Royal Hospital, London,
Dec., 1874.

Hon. Sec.

It will be observed that the time at which Essays are to be sent in has been extended from June 30th, 1876, to June 30th, 1877.

THE SUPERANNUATION OF OFFICERS IN
HOSPITALS FOR THE INSANE: Its Principle, Policy, and Practice.

By W. LAUDEE LINDSAY, M.D., F.R.S.E., Physician to the Murray Royal
Institution (for the Insane), Perth.

Contains copious Tables illustrative of the Practice of British Hospitals for the
Insane as regards the Superannuation of all classes of Officers and Servants.

The task of writing this small book is a most public-spirited one on Dr. Lindsay's part. He deserves the thanks of all Asylum officers. It will direct needed attention to the matter. He will be a very inquisitive Asylum official who does not master its contents: while he will be not a very wise Superintendent who does not see that a copy is permanently placed, along with the Lunacy Acts, in his Committee Room. . . . At much pains he has obtained the facts. . . . with still greater labour he has arranged them in the forms most suitable for reference; and he has commented on them judiciously and enthusiastically. . . . By diffusing information, therefore, as to the practice of Pensioning, wherever it has been adopted, Dr. Lindsay hopes to bring in a fashion to grant Superannuation Allowances to all classes of officers and servants after Fifteen years' service—at the rate of about two-thirds the total money value of office at the date of Retirement.—JOURNAL OF MENTAL SCIENCE.
