

PUBLICATION NOTICE

Due to an administrative error, the lineup for the conference proceedings issue *Radiocarbon 2018 Conference Proceedings Trondheim, Norway, June 17–22, 2018 Part 2 of 2* (*Radiocarbon* issue 61[6]) should have included an additional article (Ota et al. [2021](https://doi.org/10.1017/RDC.2019.95)), under the subsection “Hydrology, Limnology, Oceanography & Reservoir Effects.” The article published online on August 15, 2019 but did not appear in the issue. The article has now received final issue pagination and appears online and in print in *Radiocarbon* issue 63(4).

The publisher apologizes for this oversight.
