

ADDENDUM

Attachment security moderates the link between adverse childhood experiences and cellular aging—ADDENDUM

OR DAGAN, ARUN ASOK, HOWARD STEELE, MIRIAM STEELE, AND KRISTIN BERNARD

doi:10.1017/S0954579417001705, published by Cambridge University Press, 12 December 2017

The acknowledgments section is missing from the final published article by Dagan et al. The complete acknowledgments section is provided below. The authors apologize for the omission.

Acknowledgments

We would like to acknowledge graduate research assistants Allison Frost, Amy Hyoeun Lee, and Christopher Facompré for their significant contributions in data collection. Additionally, we would like to thank Dr. Tania L. Roth for generously providing access to qPCR equipment.
