Publisher: Katy Christomanou

Special sales and supplements:

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Katy Christomanou at the Cambridge address for further details. E-mail: kchristomanou@cambridge.org

Subscription information:

British Journal of Nutrition is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2010 comprise Volume 103, the twelve issues starting July 2010 comprise Volume 104.

Annual subscription rates:

Volumes 103/104 (24 issues):
Internet/print package £954/\$1860/€1528
Internet only: £803/\$1566/€1283
Print only: £909/\$1772/€1477

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

US POSTMASTERS: please send address corrections to *British Journal of Nutrition*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133.

Directions to Contributors are available from the Society at the address below or can be found on the Society's website at <http://www.nutrition society.org> (an abbreviated Notes for Authors can be found inside the back cover).

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file and a voucher copy of the issue in which their paper has been published. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to *British Journal of Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

Disclaimer: The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. This journal is printed on acid-free paper from renewable sources. Printed in the UK by Bell & Bain Ltd., Glasgow.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

British Journal of Nutrition is covered in Current Contents®/Agriculture, Biology & Environmental Sciences, SciSearch®, Research Alert®, Current Contents®/Life Sciences, Index Medicus® (MEDLINE®), AGRICOLA®, CAB Abstracts™, Global Health, BIOSIS® Database, EMBASE/Excerpta Medica and Elsevier BIOBASE/Current Awareness in Biological Sciences, CINAHL, and Chemical Abstracts Service.

(Contents continued from back cover)

Dietary Surveys and Nutritional Epidemiology

- No associations between serum concentrations of 25-hydroxyvitamin D and parathyroid hormone and depression among US adults.
G. Zhao, E. S. Ford, C. Li & L. S. Balluz 1696–1702
- Dietary patterns and colorectal cancer in a Japanese population: The Fukuoka Colorectal Cancer Study.
K. Kurotani, S. Budhathoki, A. M. Joshi, G. Yin, K. Toyomura, S. Kono, R. Mibu, M. Tanaka, Y. Kakeji, Y. Maehara, T. Okamura, K. Ikejiri, K. Futami, T. Maekawa, Y. Yasunami, K. Takenaka, H. Ichimiya & R. Terasaka 1703–1711
- Reduction of salt: will iodine intake remain adequate in The Netherlands?
J. Verkaik-Kloosterman, P. van 't Veer & M. C. Ocké 1712–1718

Behaviour, Appetite, and Obesity

- A computed tomography scan application to evaluate adiposity in a minipig model of human obesity.
D. Val-Laillet, S. Blat, I. Louveau & C. H. Malbert 1719–1728

Letter to the Editor

- Monosodium glutamate is not associated with obesity or a greater prevalence of weight gain over 5 years: findings from the Jiangsu Nutrition Study of Chinese adults – comments by Samuels.
A. Samuels 1729
- Monosodium glutamate is not associated with obesity or a greater prevalence of weight gain over 5 years: findings from the Jiangsu Nutrition Study of Chinese adults – response by Shi *et al.*
Z. Shi, N. D. Luscombe-Marsh, G. A. Wittert & A. W. Taylor 1730

Directions to Contributors - Concise Version**(Revised August 2007)**

The *British Journal of Nutrition* is an international peer-reviewed journal that publishes original papers, review articles, technical notes and short communications in English in all branches of nutritional science. **Prospective authors should note that they (or their institutions) now retain the copyright of their material published in the *British Journal of Nutrition*.** As a contributor you are asked to follow the guidelines set out below. For detailed information on the presentation of the technical content of your paper please see the full version of the **Directions to Contributors**, which can be downloaded from the Nutrition Society website (<http://www.nutrition.society.org>). Prospective authors may also contact the Publications Office directly on + 44 (0)20 7605 6555 (telephone), +44 20 7602 1756 (fax), or edoffice@nutsoc.org.uk (email).

Papers should be accompanied by a statement to the effect that the conditions laid down in the full Directions to Contributors are accepted. The statement should affirm that the submission represents original work that has not been published previously and which is not currently being considered by another journal. It should also confirm that each author has seen and approved the contents of the submitted paper. At the time of acceptance the authors should provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer). The Licence to Publish is available on the Nutrition Society website (<http://www.nutrition.society.org>). All relevant financial interests should be declared.

Text. Papers should be submitted with 1.5 line spacing and margins of at least 2 cm on each side. Text should be printed without underlining, bold or italics (except for scientific names). Standard abbreviations (e.g. Fig. and Figs.) and SI units should be used. **Typescripts can be submitted as Word, WordPerfect, EPS, Text, Postscript or RTF files. A Word processing format is required for production purposes once papers have been accepted. When substantial revisions are required to typescripts, authors are given the opportunity to do this once only, the need for any further changes should at most reflect any minor issues.**

Title Page. The first page should include a concise, informative title together with the names and addresses of the authors. A contact name for correspondence should be given and telephone, fax and email addresses provided. Authors should supply three or four key words or phrases (each containing up to three words). A short title of up to 45 characters is required as a running head.

Abstract. Each paper should commence with an accurate and informative abstract, written as a single paragraph. It should be complete in itself and intelligible without reference to the text or figures, and should not exceed 250 words.

Tables. Tables should be reduced to the simplest form, and should not duplicate information in the text or figures. They should be typed on separate pages, one page for each Table, at the end of the article and carry headings describing their content.

Illustrations. The original illustrations should accompany the submitted typescript. Text figures, line drawings, computer-generated figures and graphs should be of sufficient size and quality to allow for reduction by half or two-thirds. Half-tone photographs are acceptable where they clearly contribute to the text. All figures should be numbered and legends should be provided.

Note that authors will be charged 350 GBP for the publication of colour figures. Authors from countries entitled to free journal access through HINARI will be exempt from these charges.

References. References should be based on the numbered (Vancouver) system. **When an article has more than ten authors, only the names of the first three should be given followed by *et al.*; give abbreviated journal titles and conform to the following styles:**

- Goel V, Cheema SK, Agellon LB, Ooraikul B & Basu TK (1999) Dietary rhubarb (*Rheum rhabarbarum*) stalk fibre stimulates cholesterol 7 α -hydroxylase gene expression and bile acid excretion in cholesterol-fed C57BL/6J mice. *Br J Nutr* **81**, 65–71.
- Jenkins DJ, Kendall CW, Marchie A, *et al.* (2003) The effect of combining plant sterols, soy protein, viscous fibres, and almonds in treating hypercholesterolemia. *Metabolism* **52**, 1478–1483.
- Brandtzaeg P (2003) Role of local immunity and breast-feeding in mucosal homeostasis and defence against infections. In *Nutrition and Immune Function*, pp. 273–320 [PC Calder, CJ Field and HS Gill, editors]. Wallingford, Oxon: CAB International.
- Stock M & Rothwell NJ (1982) *Obesity and Leanness: Basic Aspects*. London: John Libbey.

Citations should be numbered consecutively in the order in which they first appear in the text using superscript Arabic numerals in parentheses, e.g. 'The conceptual difficulty of this approach has recently been highlighted^(1,2-4). If a reference is cited more than once the same number should be used each time.

Referees. Authors are asked to submit the names of up to four scientists who would be well-qualified to review the paper; however, no more than one such reviewer will be used. The email addresses and institutions of the named reviewers should be given.

Proofs. PDF page proofs will be emailed to authors for checking, and should be returned within 3 days (by fax or Express mail) to the BJN Production Editor, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU, UK; fax +44 1223 325802, email bjnproduction@cambridge.org

Typescripts. The *British Journal of Nutrition* operates an on-line submission and reviewing system (eJournalPress). **Authors should submit to the following address:** <http://bjn.msubmit.net/> If any difficulties are encountered please contact the Publications Office (details above) immediately.

Contents

Commentary

- The American Heart Association advisory on *n*-6 fatty acids: evidence based or biased evidence?
P. C. Calder 1575–1576

Systematic Reviews

- The efficacy of *n*-3 fatty acids DHA and EPA (fish oil) for perinatal depression.
L. A. W. Jans, E. J. Giltay & A. J. W. Van der Does 1577–1585
- n*-6 Fatty acid-specific and mixed polyunsaturate dietary interventions have different effects on CHD risk: a meta-analysis of randomised controlled trials.
C. E. Ramsden, J. R. Hibbeln, S. F. Majchrzak & J. M. Davis 1586–1600

Short Communication

- The choice of biomarkers determines the selenium status in young German vegans and vegetarians.
J. Hoeflich, B. Hollenbach, T. Behrends, A. Hoeg, H. Stosnach & L. Schomburg 1601–1604

Molecular Nutrition

- Regulation of expression and activity of selenoenzymes by different forms and concentrations of selenium in primary cultured chicken hepatocytes.
X. Wu, C. Wei, C. Pan, Y. Duan & K. Huang 1605–1612
- Antidiabetic effects of bitter melon extracts in insulin-resistant db/db mice.
S. D. Klomann, A. S. Mueller, J. Pallauf & M. B. Krawinkel 1613–1620
- Whey peptides improve wound healing following caesarean section in rats.
J. Wang, M. Zhao, R. Liang, Z. Zhang, H. Zhao, J. Zhang, T. Li & Y. Li 1621–1627

Metabolism and Metabolic Studies

- Supplementation with EPA or fish oil for 11 months lowers circulating lipids, but does not delay the onset of diabetes in UC Davis-type 2 diabetes mellitus rats.
B. P. Cummings, K. L. Stanhope, J. L. Graham, S. C. Griffen & P. J. Havel 1628–1634
- Plasma appearance and correlation between coffee and green tea metabolites in human subjects.
M. Renouf, P. Guy, C. Marmet, K. Longet, A.-L. Fraering, J. Moulin, D. Barron, F. Dionisi, C. Cavin, H. Steiling & G. Williamson 1635–1640

Developmental Biology

- Long-term effects of gestational diabetes on offspring health are more pronounced in skeletal growth than body composition and glucose tolerance.
J. Zhao & H. A. Weiler 1641–1649

Nutritional Immunology

- Time-dependent changes in the expression of lymphocyte and monocyte cell adhesion molecules after meals of different composition.
E. Torrecilla, M. González-Muñoz, C. Lahoz & J. Mostaza 1650–1654

Human and Clinical Nutrition

- Supplementation of iron alone and combined with vitamins improves haematological status, erythrocyte membrane fluidity and oxidative stress in anaemic pregnant women.
A. G. Ma, E. G. Schouten, Y. Y. Sun, F. Yang, X. X. Han, F. Z. Zhang, D. C. Jiang & F. J. Kok 1655–1661
- Effects of a dietary intervention promoting the adoption of a Mediterranean food pattern on fast-food consumption among healthy French-Canadian women.
A. Bédard, J. Goulet, M. Riverin, B. Lamarche & S. Lemieux 1662–1665
- Estimated macronutrient and fatty acid intakes from an East African Paleolithic diet.
R. S. Kuipers, M. F. Luxwolda, D. A. J. Dijck-Brouwer, S. B. Eaton, M. A. Crawford, L. Cordain & F. A. J. Muskiet 1666–1687
- Potent anti-obesity effect of enteric-coated lactoferrin: decrease in visceral fat accumulation in Japanese men and women with abdominal obesity after 8-week administration of enteric-coated lactoferrin tablets.
T. Ono, M. Murakoshi, N. Suzuki, N. Iida, M. Ohdera, M. Iigo, T. Yoshida, K. Sugiyama & H. Nishino 1688–1695
