

THE DESTRUCTION OF PINK BOLL WORM IN COTTON SEED

SIMON'S PATENT HEATERS. 100% Mortality. No damage to seed.

Extract from *Egyptian Ministry of Agriculture Official Bulletin* :—

"In running the only requirement is the necessary steam power. No extra labour is involved, the seed being sacked as it comes from the machine instead of as it comes from the gins in the usual way. The machine is therefore cheap as regards both initial cost and running expenses; it is very compact, simple of construction, easy of management, continuous in action, and entirely devoid of danger; it is therefore a practical proposition from every point of view."

Sole Agents for the British Empire and the U.S.A.—

THE IMPERIAL INSTITUTE OF ENTOMOLOGY,
41, QUEEN'S GATE, LONDON, S.W.7.

Vol. LXXII (LITERATURE OF 1935).

NOW READY.**ZOOLOGICAL RECORD—PART INSECTA.**

The "Insecta" part of the "Zoological Record" (as distinguished from the complete volume) is now published by and only obtainable from, the Imperial Institute of Entomology.

Owing to the lack of support given to the experiment of breaking the part up into five separate sections, this practice has been discontinued, beginning with Vol. LXVIII (literature of 1931), which appeared in July 1932. The "Insecta" part is therefore now only obtainable in the complete form, except in the case of certain sections of Vols. LXI-LXVII. The price of the part will be as before, viz. :-15/6 post free.

All orders for the "Insecta" part should be addressed to *The Assistant Director, Imperial Institute of Entomology, 41, Queen's Gate, London, S.W.7.*

Orders for the complete volume of the "Zoological Record" should be sent to the Zoological Society of London, Regent's Park, London, N.W.8.

REVIEW OF APPLIED ENTOMOLOGY

	Series "A"	Series "B"
