

## ERRATUM

Due to a printing error, Figures 3 and 6 on pages 18 and 21 of the article ‘The role of the flexural rotation/rolling hinge model in the tectonic evolution of the Alaşehir graben, western Turkey’ by G. Seyitoğlu, O. Tekeli, İ. Çemen, Ş. Şen & V. Işık (Volume 139, 2002) are wrong; the printers apologise for their mistake. The correct versions of the figures are printed below and over-page.

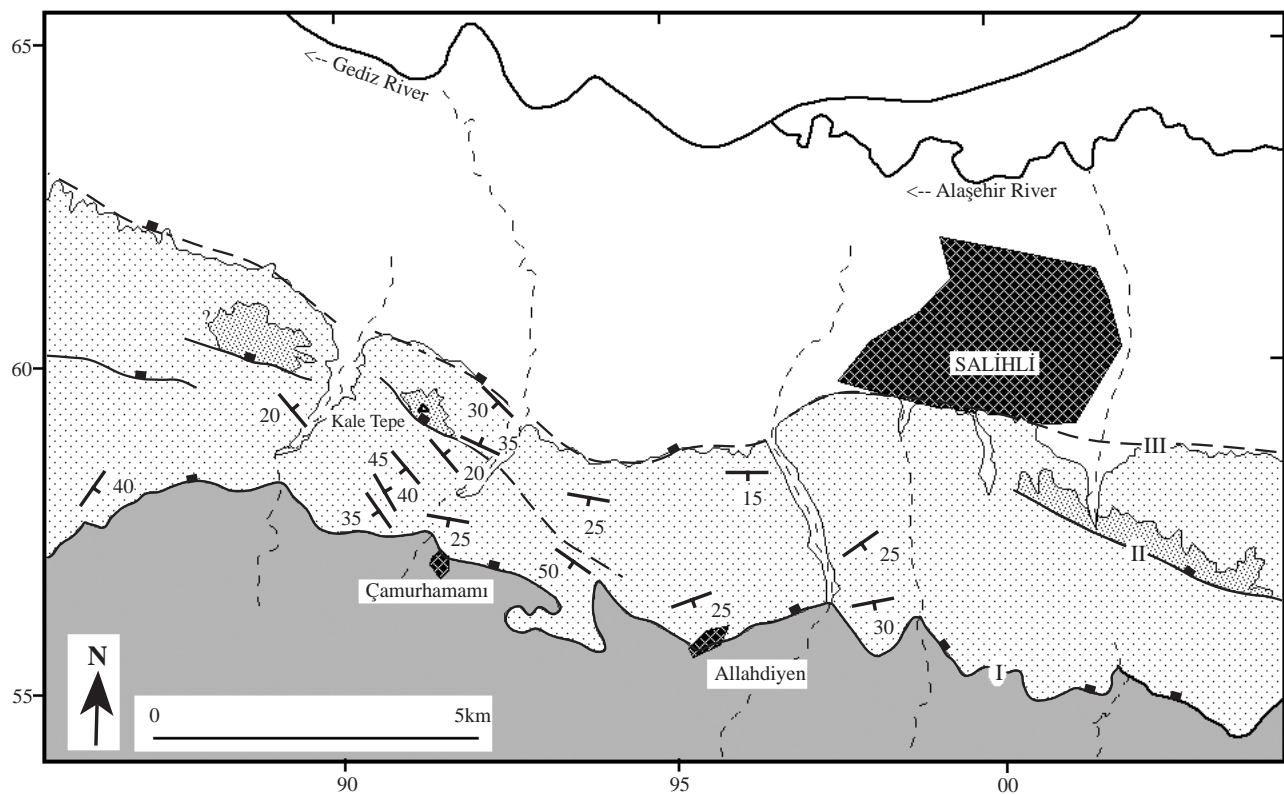

Figure 6. Geological map of Kaletepe–Salihli area in the Alaşehir graben. Key as in Figure 4.

Zeytin Çayı section in Alaşehir graben

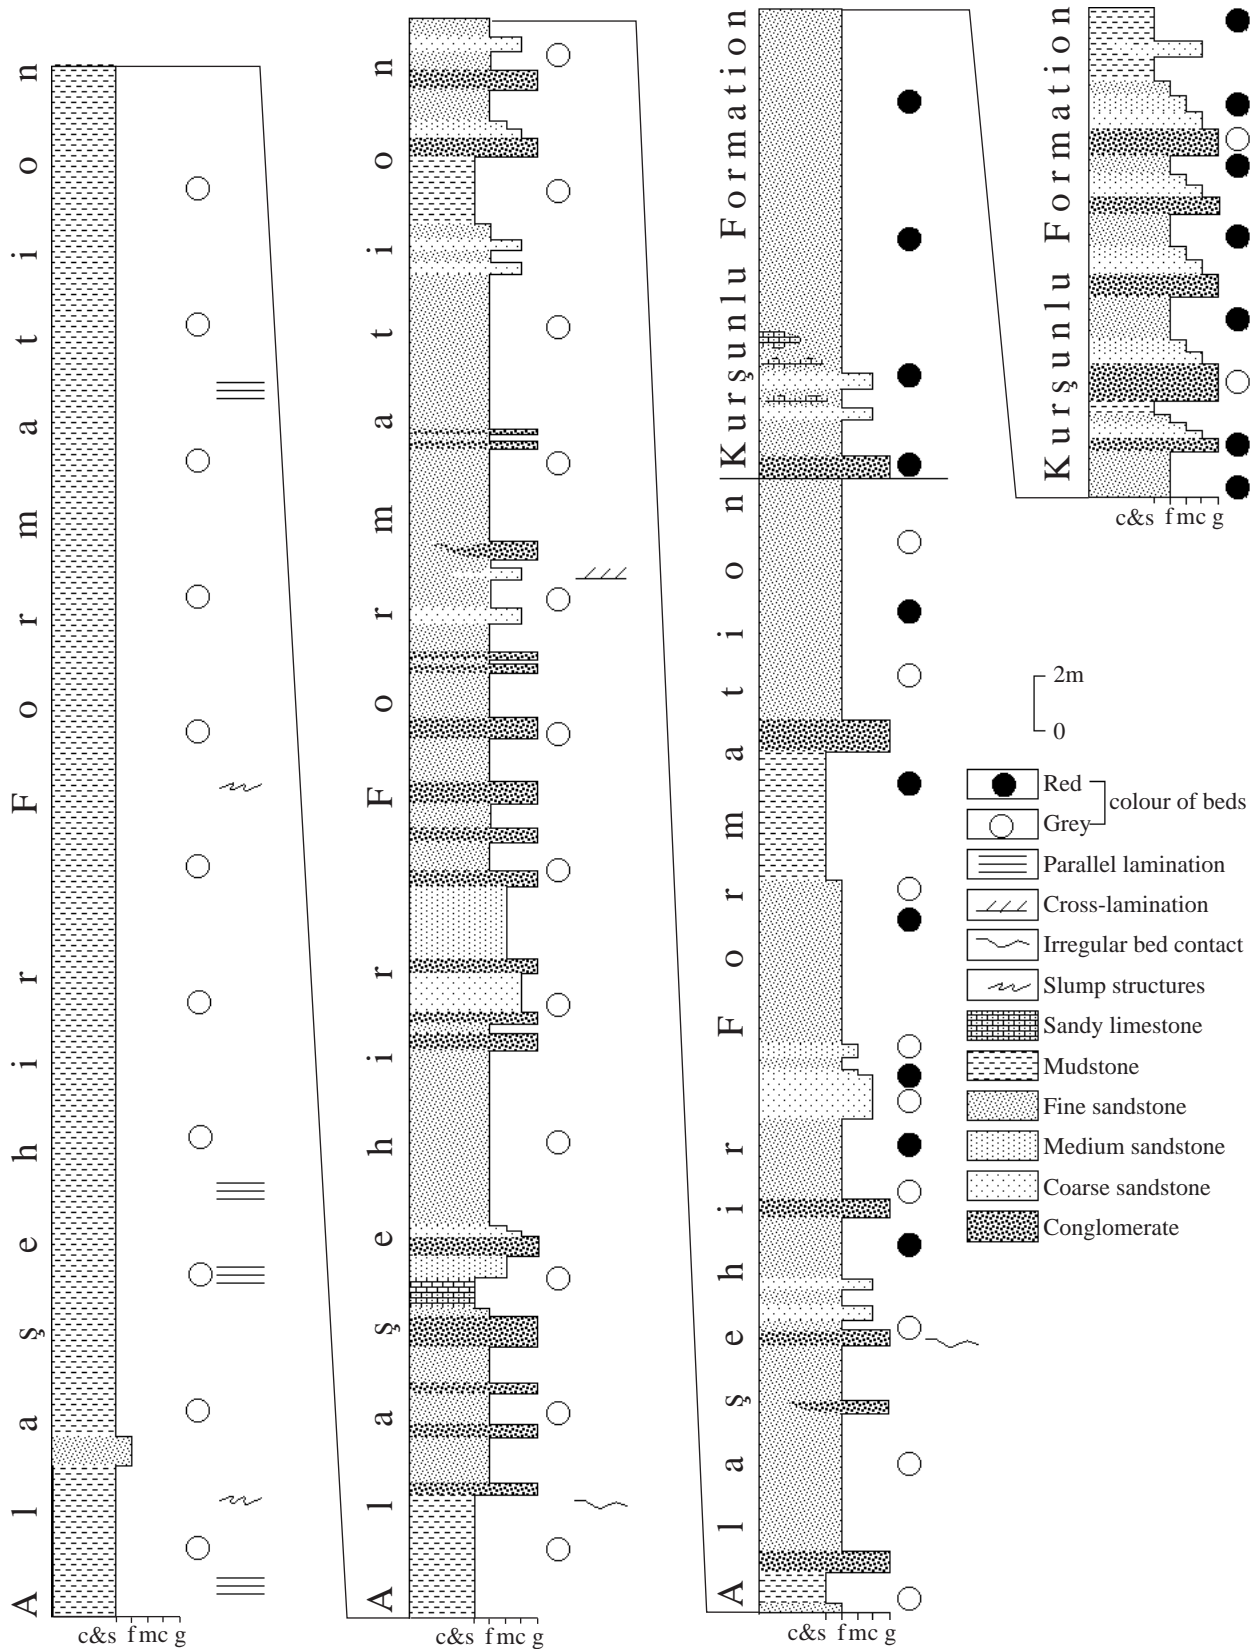

Figure 3. Measured stratigraphic log between Alaşehir and Kurşunlu Formations. See Figures 4 and 8 for location. c&s – clay and silt, f – fine sand, m – medium sand, c – coarse sand, g – gravel.
