## CONTENTS

### REVIEW ARTICLE

**Unconjugated bilirubin and schizophrenia: a systematic review**

Erik Pommerening Dornelles, João Gama Marques and Silvia Ouakinin

577

### ORIGINAL RESEARCH

**Gender-related differences in patients with bipolar disorder: a nationwide study**

Massimiliano Buoli, Bruno Mario Cesana, Bernardo Dell'Osso, Andrea Fagiolini, Andrea de Bartolomeis, Emi Bondi, Giuseppe Maina, Antonello Bellomo and A. Carlo Altamura

589

**A study on the correlates of habit-, reward-, and fear-related motivations in alcohol use disorder**

Marcelo Piquet-Pessôa, Samuel R. Chamberlain, Rico S. C. Lee, Gabriela M. Ferreira, Marcelo S. Cruz, Ana P. Ribeiro, Gabriela B. de Menezes, Lucy Albertella, Murat Yücel and Leonardo F. Fontenelle

597

**Fibromyalgia and dissociative symptoms**

Juan Manuel Duarte, Catherine Crow, Ariel Antik, Francisco Appiani and Alejandro Caride

605

**Abnormalities of striatal morphology in gambling disorder and at-risk gambling**

Jon E. Grant, Masanori Isobe and Samuel R. Chamberlain

609

**Long-term functioning outcomes are predicted by cognitive symptoms in working patients with major depressive disorder treated with vortioxetine: results from the AtWoRC study**

Pratap Chokka, Joanna Bougie, Jean Proulx, Anders Holmegaard Tvistholm and Anders Ettrup

616

### EDITORIAL

**A different aspect of the unexpected death of Mozart at the age of 35 years**

Ayhan Kanat, Elena Romana Gasenzer and Edmund Neugebauer

628

### LETTER TO THE EDITOR

**Comparison of polypharmacy using low-dose second-generation antipsychotics plus low-dose first-generation antipsychotics with monotherapy using therapeutic-dose second-generation antipsychotics in schizophrenia – a pooled analysis**

Ching-Hua Lin, Fu-Chiang Wang, Yu-Hui Huang, Shih-Chi Lin and Chao-Chan Kuo

Carlos A. Zarate, Jr., National Institute of Mental Health, USA  
Joseph Zohar, Tel Aviv University, Israel

**Managing Editor**

Lisa Arrington, Cambridge University Press (larrington@cambridge.org)

## Aims and Scope

*CNS Spectrums* covers all aspects of the clinical neurosciences, neurotherapeutics and neuropsychopharmacology, particularly those pertinent to the clinician and clinical investigator. The journal features focused, in-depth reviews, perspectives and original research articles. New therapeutics of all types in psychiatry, mental health, and neurology are emphasized, especially first in man studies, proof of concept studies and translational basic neuroscience studies. Subject coverage spans the full spectrum of neuropsychiatry, focusing on those crossing traditional boundaries between neurology and psychiatry.

## Submitting Manuscripts to *CNS Spectrums*

All submissions to *CNS Spectrums* should be prepared in accordance with the instructions for authors and in the style of the Journal. Manuscripts should be submitted through the dedicated *CNS Spectrums* ScholarOne Manuscripts website: <http://mc.manuscriptcentral.com/cnsspectr>

*CNS Spectrums* will consider and encourage the following types of articles for publication: **Reviews**—The review article is a comprehensive article summarizing and synthesizing the literature on various topics presented in a scholarly and clinically relevant fashion; **Perspectives**—The perspective article is a type of review that is a short, focused summary of a single recent advance, a sort of spotlight on the topic, which could be for example, a single point hypothesis or a novel model. It can stimulate debate and new research. **Meta-guidelines**—A meta-guideline is a “guideline of guidelines” put together by several leading figures in a field in which there are multiple competing guidelines that require synthesis and updating; **Original Research**—Reports the results of a clinical study and contains original research; the journal will also include **Brainstorms** and **Editorials** that shall be commissioned or written by the Editor-in-Chief.

## Instructions for Contributors

The Instructions for Contributors are available on the Cambridge Journals Online web site at: <http://journals.cambridge.org/CNSifc>

## Indexing

*CNS Spectrums* is indexed by *Index Medicus*/MEDLINE and Web of Science (Thomson Reuters) as well as appearing in the annual Journal Citation Report. Introduced in 1996, the journal was acquired in whole by Cambridge University Press in November of 2011.

## Subscriptions

Institutional print and electronic: £546/\$866; Institutional electronic only: £415/\$663.
