

# LifeDefense Plus™ from Matrux

## The New Standard in Defibrillator/Monitor/Pacers

The new standard in defibrillator/monitor/pacers, LifeDefense Plus™ is the result of a joint venture between Matrux Medical Inc., the largest distributor and manufacturer of emergency care equipment and supplies in the United States, and NEC San-ei Instruments Ltd., a worldwide leader in medical electronic technology. The new light-weight (18.7 lbs.) integrated defibrillator/monitor/pacer, LifeDefense Plus™ incorporates as standard, features that other units offer only as options.

### Defibrillator

- Impedance indicator on paddle
- Energy setting on paddle
- Remote defibrillation
- Synchronized cardioversion
- Automatic recording of defibrillation event
- Pediatric paddle adapters

### Monitor

- Large 7 sq. in. Sony® CRT screen
- Direct monitoring from ECG electrodes, paddles, or defibrillation electrodes
- Audio/visual message system
- Real/delay recording modes
- Annotated messages on Z-fold thermal paper

### Pacer

- Demand pacing
- Fixed pacing
- High-impedance, conductive rubber electrodes

### Battery support/accessories

- High-capacity 2.2 amp hour NiCad battery
- Multiple-function battery support system
- Full complement of quality Matrux accessories

For more information and a demonstration of LifeDefense Plus™, the new standard in emergency cardiac care, call Matrux at 1-800-845-3550.

Introducing the Remarkable

## Heartstart® 3000

The most "intelligent" choice for early defibrillation. Laerdal's advanced design includes:

- An incredibly lightweight defibrillator with monitor at less than 10 pounds.
- A full twenty minutes of continuous ECG data stored in a solid state module for concise case reports.
- A dual-channel microprocessor system that meets the latest regulatory and safety requirements.
- A new command display with additional messages, more ECG information and easy operation.
- The new "Quick Reporter" that instantly prints case reports in the field, ready to be delivered at the hospital with your patient.

*Today nearly seven out of ten automated units used worldwide are Heartstarts. To see the remarkable Heartstart 3000, contact us at Laerdal.*
