

ERRATUM

The existential moment

BALFOUR M. MOUNT, M.D., F.R.C.S.C.

Eric M. Flanders Professor of Palliative Medicine, Department of Oncology, McGill University,
Quebec, Canada

(Article appeared in *Palliative and Supportive Care* (2003), 1, 93–96.)

On page 93, paragraph 2, sentence 2 should have read:

“in a lifelong friendship **of eighteen months**, he had been my colleague, my mentor, my fellow-performer, my friend”. We inadvertently eliminated the phrase “of eighteen months” which did not accurately reflect Dr. Mount’s intention of communicating the intense experience of getting to know Philip Simmons over a relatively short period of time, yet still have the sense of being a lifelong friend.
