

INDEX TO VOL. LXXXVII.

The General Index covers original articles, reviews and the epitome, and includes subjects dealt with as well as the titles of articles.

The following names are printed in SMALL CAPITALS: authors of original articles and of books reviewed. Names of authorities referred to in the text are in ordinary type.

(R.) indicates a *Review*; the title of the book reviewed is followed by the author's name, thus: "Psycho-analysis and its Derivatives, by H. Crichton-Miller (R.)."

(E.) indicates the *Epitome* section; the title of the abstract is followed by the author's name, thus: "Age and human ability. Miles, W. R. (E.)."

The names of authors referred to in the Epitome section are listed in Part II.

PART I.—GENERAL INDEX.

- Acetylcholine on the denervated iris of the cat and monkey, actions of adrenaline and (E.), 151
 Action currents in nerves unaccompanied by heat transfer, occurrence of (E.), 307
 " potentials of muscles in athetosis and Sydenham's chorea (E.), 122
 Adrenaline and acetylcholine on the denervated iris of the cat and monkey, actions of (E.), 151
 " and of pituitrin on the chronaxy of the motor centres of the cerebral cortex, the action of (E.), 310
 Alcoholics, the psychology and treatment of (E.), 146
 Alcoholism, an objective sign (Gans-Rodiel) in chronic. Amdur, M. K., and Ginsberg, S. T. (E.), 472
 " changes in the brain in. Stevenson, L. L., McGowan, L. E., and Allen, A. M. (E.), 452
 Allergic factor in idiopathic epilepsy. Dewar, D. C., 608
 Alpha rhythm in man, flicker potentials and the. Toman, J. (E.), 468
 Amines on perfused blood vessels, effects of sympathomimetic (E.), 150
 Amino-acid content of the brain proteins, the variability of the (E.), 153
 Amytal medication, intravenous sodium, as an aid to the Rorschach method. Ketley, D. M., *et al.* (E.), 473
 Analeptics, a comparison of (E.), 309
 ANDERSON, E. W., and MALLINSON, W. P., psychogenic episodes in the course of major psychoses, 383
 Anxiety attack, a psycho-biological approach to the acute, by H. A. Palmer, 208
 " in homosexual types, the experimental effect of sex-hormone therapy on. Rudolf, G. de M. (E.), 459
 Aphasia, the unsolved problems in (E.), 290
 Arachnodactyly (Dolichosténomélie of Marfan), by E. Cunningham Dax, 434
 Arsenic as a possible cause of subacute encephalomyelitis. Ecker, A. D., and Kernohan, J. W. (E.), 452
 Atropine and physostigmine on the sensitivity of the carotid sinus toward carbon dioxide and potassium cyanide, the influence of (E.), 149
 Autonomic poisons on the vegetative enzymes of the blood, effect of (E.), 150
 Azo dyes containing the sulphamide group, the sedative and anticonvulsant action of (E.), 310
 BAIRD, H., psychoses in officers in the 1914-1918 war, 109
 Barbituric acid derivatives, poisoning by (E.), 149
 Basal ganglia, cerebellar atrophy associated with état marbré of the (E.), 295
 " " degeneration of, associated with olivo-ponto-cerebellar atrophy. Aring, C. D. (E.), 464
 " " of the cat, experimental lesions in the (E.), 289

- Cerebro-spinal fluid, pyruvic acid in blood and (E.), 155
 " " the clinical significance of bisulphite binding substances (B.B.S.) in the blood and (E.), 286
- CHAMBERS, E. G., Statistical Calculation for Beginners. (R.), 444
- Chemical mediation in the central nervous system, experiments concerning the problem of (E.), 147
- Children, runaway (E.), 282
 " schizophrenic-like reactions in. Clardy, E. R., Goldensohn, I. N., and Levine, K. (E.), 473
- Choline esterase in brain and spinal cord of sheep embryos (E.), 137
 " in the skeletal muscle after degeneration of the motor nerve (E.), 306
- Conditioned stimulus in the integrated response pattern and the relation of pattern changes in psychopathology, the role of the isolated (E.), 133
- Conjugal neurosyphilis, the incidence of. Hutton, E. L., 313
- Convulsion therapy in war psychoneurotics, by R. Good, 409
 " " spinal injuries in, by L. C. Cook and D. E. Sands, 230
- COOK, L. C., and SANDS, D. E., spinal injuries in convulsion therapy, 208
- Corneal reflex, the cerebral arc of the. Walker, A. E. (E.), 465
- Cornu ammonis in the opossum, vascularization and vulnerability of (E.), 122
- Corpus callosum, an analysis of cortical potentials mediated by the (E.), 137
 " " as indicated by evoked potentials, intercortical connections of (E.), 137
- Cortical autonomous rhythms and the excitatory levels of other bodily tissues (E.), 294
- Crichton Royal, The Chronicle of, by C. C. Easterbrook (R.), 439
- Crime in England between the Wars, Social Aspects of, by H. Mannheim (R.), 442
- Criminals, a psychiatric study of 100. Oltman, J. E., and Friedmann, S. (E.), 466
- Curare, the use of, in modifying metrazol therapy. Gray, R. F., Spradling, F. L., and Fechner, A. H. (E.), 473
- Curarine on the parasympathetic system, the influence of (E.), 150
- Cyanotic syndrome, Schied's, by H. A. Palmer, 635
- DAX, E. CUNNINGHAM, arachnodactyly (dolichostenomélie of Marfan), 434
- Delirium, studies in senile nocturnal. Cameron, D. E. (E.), 472
- Dementia praecox patients, the prediction of the outcome-on-furlough of (E.), 144
 " " the bromine and iodine metabolism in (E.), 305
- Detoxication in mental disorder, faulty (E.), 302
 " in schizophrenia, faulty (E.), 302
- DEWAR, D. C., the allergic factor in idiopathic epilepsy, 608
 " a survey of skin testing, with observations on a suggested method in epileptics, 397
- Dilantin sodium, ingestion of large doses of. Aring, C. D., and Rosenbaum, M. (E.), 457
- Diseases of the Nervous System, by F. M. R. Walshe (R.), 277
- EASTERBROOK, C. C., The Chronicle of Crichton Royal (R.), 439
- Effort syndrome, fatigue and the, by E. Guttmann, 349
- Electrically induced convulsions in animals, studies in. Page, J. D. (E.), 462
 " " " in rabbits, the electroencephalogram in (E.), 296
 " " " the treatment of mental disorders by, by R. E. Hemphill and W. Grey Walter, 256
- Electrocardiogram during shock treatment by insulin (E.), 151
- Electro-encephalogram in electrically induced convulsions in rabbits, the (E.), 296
 " technique and evaluation of the. Davis, P. A. (E.), 470
- Electro-encephalograms of "constitutionally inferior" and behaviour problem children. Lindsley, C. B., and Cutts, K. K. (E.), 449
- Electro-encephalography, an improved amplifier for (E.), 294
- Emotional problems in childhood, treatment of, by W. H. Whiles, 359
- Encephalitis, localized non-suppurative, secondary to infections of the temporal bone and paranasal sinuses. Yaskin, J. C. (E.), 463
- Encephalomyelitis, arsenic as a possible cause of subacute. Ecker, A. D., and Kernohan, J. W. (E.), 452
- Epilepsy complicated by uncontrollable diabetes mellitus (E.), 305
 " constitutional differences between deteriorated and non-deteriorated patients with. III. Dactylographic studies. Brown, M., and Paskind, H. A. (E.), 465
 " " " between deteriorated and non-deteriorated patients with. IV. The handwriting (E.), 122

- Epilepsy, cutaneous naevus with buphthalmos and, by R. Ironside and D. Hill, 631
 ,, inheritance of cerebral dysrhythmia and. Lennox, W. G., Gibbs, E. L. and F. A. (E.), 449
 ,, the occurrence of guanidine-like substances in the blood in essential (E.), 154
 Epileptic seizures, induction of (E.), 154
 Epileptics, a survey of skin-testing, with observations on a suggested method in, by D. C. Dewar, 397
 Erythroedema polyneuritis (pink disease), a study of, by T. A. Ratcliffe, 545
 Ethanol in the central nervous system of the rat when given in association with butylethylmalonylurea, distribution of (E.), 147
 ,, in the different parts of the central nervous system of the rat after administration of various doses, distribution of (E.), 147
 ,, plus butylethylmalonylurea in the rat, antagonism between strychnine and (E.), 147
 Excitability of the skeletal muscles under the influence of the action of potassium and calcium on the central nervous system, the (E.), 308
 Excitation of the brain, pharmacological analysis of physiologically active substances which are formed during (E.), 306
 Extra-pyramidal poisons, the pharmacological action of some (E.), 309
- Faradic shock in treatment of functional mental disorders: treatment by excitation followed by intravenous use of barbiturates (E.), 126
 Fatigue and the effort syndrome, by E. Guttmann, 349
 Fear and Courage, The Psychology of, by E. Glover (R.), 443
 Fever therapy in multiple sclerosis, artificial (E.), 135
 Fifth cranial nerve, function of mesencephalic root of (E.), 138
 Finger painting in the treatment of adult patients with personality disorders, observations on the use of (E.), 129
 FREUDENBERG, R., on the curability of mental diseases by "shock treatment," 529
 Fugue states, on the aetiology of, by E. Stengel, 572
- Geniculate body in the cat, connections of the medial. Ades, H. W. (E.), 454
 GLOVER, E., An Investigation of the Technique of Psycho-analysis (R.), 276
 ,, The Psychology of Fear and Courage (R.), 443
 Glucose for human brain oxidations, availability of (E.), 155
 GOOD, R., convulsion therapy in war psychoneurotics, 409
 Guanidine-like substances in the blood in essential epilepsy, the occurrence of (E.), 154
- Haemato-encephalic barrier, the (E.), 303
 ,, ,, the influence of hunger on (E.), 304
 ,, ,, of muscular fatigue on the condition of the (E.), 303
 HALDANE, F. P., and BIERER, E., a self-governed patients' social club in a public mental hospital, 419
 Hallucinations in children (E.), 282
 Handwriting, the, constitutional differences between deteriorated and non-deteriorated patients with epilepsy. IV (E.), 122
 HAWORTH, N. A., and MACDONALD, E. M., The Theory of Occupational Therapy (R.), 444
 Headache, experimental studies on. Schumacher, G. A., and Wolff, H. G. (E.), 456
 ,, further analysis of histamine headache and its pain pathways, experimental studies on (E.), 126
 Head injury, the mental sequelae of, by H. A. Palmer, 370
 Hebephrenia, prognosis of. Gottlieb, B. S. (E.), 472
 ,, prognostic criteria in (E.), 283
 HEMPHILL, R. E., the influence of the war on mental disease, 170
 ,, and GREY WALTER, W., the treatment of mental disorders by electrically induced convulsions, 256
 ,, and STENGEL, E., subacute combined degeneration of unknown origin with extensive involvement of the brain, 77
 HILL, D., and IRONSIDE, R., cutaneous naevus with buphthalmos and epilepsy, 631
 HILLIARD, L. T., and KIRMAN, B. H., syphilis in old age, 101
 Hippuric acid, abnormal excretion of, after administration of sodium benzoate (E.), 302
 Histamine in the treatment of neuro-vascular headache, the use of (E.), 299
 ,, ,, of psychoses (E.), 286
 Homosexuality, studies in the genetic determination of (E.), 134

- HUTTON, E. L., recent advances in the aetiology and treatment of neuro-syphilis, 1
 " the incidence of conjugal neurosyphilis, 313
- Hydrastine as an antagonist to sodium pentobarbital (E.), 149
- Hyperostosis frontalis interna, by R. M. Stewart, 600
- Hypervitaminosis D, modifications of nervous and muscular excitability in animals in (E.), 147
- Hypnotic state, an experimental study of the improvement of mental and physical function in the. Eysenck, H. J. (E.), 459
- Hypochondriasis, a differential study of (E.), 297
- Hypoglycaemia and the automatic nervous system. Fortuyn, J. D. (E.), 466
 " observations in. II. Blood sugar and consciousness. Mayer-Gross, W., and Berliner, F., 427
 " oral and facial movements, observations in, by W. Mayer-Gross, 157
- Hypoglycaemia treatment of schizophrenia, observations and results obtained in the. Coyne, A. R. (E.), 463
- Hypothalamic excitation, physiological and pharmacological investigations on the nature of. Gelhorn, E. (E.), 448
- Imagination and its exploitation, a note on the. Campbell, C. M. (E.), 465
- Impotence, the effects of testosterone propionate in. Carmichael, H. T., Noonan, W., and Kenyon, A. T. (E.), 447
- INGRAM, K., Sex-Morality To-morrow (R.), 444
- Inhibition and its ontogenetic maturation, the mechanism of (E.), 145
- Insulin and metrazol therapy, effects of, on cerebro-spinal fluid proteins. Kingsley, G. R., and Freed, H. (E.), 457
 " convulsions and blood sugar, effects of steroid glycosides and cortin on (E.), 151
 " dosage, duration and degree of hypoglycaemia and production of brain damage (in cats), relationship between (E.), 151
 " electrocardiogram during shock treatment by (E.), 151
 " hypoglycaemia; clinical features and treatment, prolonged coma after (E.), 135
 " shock, advantages and danger of combined anoxic and (E.), 126
 " " therapy, compression fractures of the dorsal vertebrae resulting from a convulsion occurring during the course of. Rupp, C. (E.), 465
 " " " in the older patient with schizophrenia or a schizophrenia-like reaction. Robinson, G. W., jun. (E.), 473
 " the effects of, on serum lipides and choline esterase in schizophrenia (E.), 151
 " treatment of schizophrenia, coma resistance and adrenalinaemia in (E.), 311
- Intracranial pressure on the cerebral blood flow, the effect of raised (E.), 295
- IRONSIDE, R., and HILL, D., cutaneous naevus with buphthalmos and epilepsy, 631
- Kent's oral test, the development of knowledge in the mental defective based on. Rudolf, G. de M. (E.), 459
- Ketonaemia in hemiplegic individuals (E.), 302
- KIRMAN, B. H., and HILLIARD, L. T., syphilis in old age, 101
- Knee jerk, general trend of the, under conditions of voluntary relaxation. Stephenson, W. (E.), 459
- LAFORGUE, RENÉ, The Relativity of Reality (R.), 276
- Left-sided weakness, blood-pressure difference between the two arms and left optic atrophy: a new clinical syndrome? (E.), 135
- Lipide metabolism in brain and other tissues of the rat (E.), 152
 " " " during myelination (E.), 153
- Lipides in brain and other tissues with deuterium as an indicator, a study of the synthesis and deposition of (E.), 152
- Literary club, experiences with a, in the group treatment of schizophrenia. Blackman, N. (E.), 471
- Lobotomy, effects of prefrontal, on depressed patients. Worchel, P., and Iyerly, J. G. (E.), 469
- LOGAN, W. R., psychical illness among the Services in Singapore, 241
- MACDONALD, E. M., and HAWORTH, N. A., The Theory of Occupational Therapy (R.), 444
- MACKENZIE, M., The Human Mind (R.), 442
- Magnesium on the nervous system in relation to its concentration in serum, effects of (E.), 148
 " sulphate in the psychiatric clinic, the use of (E.), 309

- MALLINSON, W. P., and ANDERSON, E. W., psychogenic episodes in the course of major psychoses, 383
- MANNHEIM, H., Social Aspects of Crime in England between the Wars (R.), 442
- MAYER-GROSS, W., observations in hypoglycaemia: oral and facial movements, 157
- " and BERLINER, F., observations in hypoglycaemia. II. Blood sugar and consciousness, 427
- Melancholia, involuntional (E.), 288
- Memorizing in psychoneurotics, mechanisms of (E.), 145
- Mescaline hallucinations during metrazol therapy. Ziskind, E. (E.), 456
- " some peculiar manifestations of, with special reference to lightning calculators. Brill, A. A. (E.), 465
- Meningitis, action of albugid in epidemic (E.), 311
- Mental defective, the development of knowledge in, based on Kent's oral test. Rudolf, G. de M. (E.), 459
- " defectives, a study of the Binet and Cattell systems of intelligence testing in a colony for, by J. C. Rohan, 192
- " Health in School, Toward, by C. R. Myers (R.), 443
- Mescaline hallucinations in artists. Maclay, W. S., and Guttmann, E. (E.), 453
- Metabolism in mongolian idiocy and phenylpyruvic oligophrenia, cerebral. Himwich, H. E., and Fazekas, J. F. (E.), 450
- Metrazol, a study of the central action of (E.), 284
- " by premedication with scopolamine hydrobromide, an improvement in convulsive therapy with (E.), 283
- " elimination of (E.), 148
- " on the activity of indirectly stimulated muscle preparations, effect of (E.), 148
- " on the eye, studies in convulsant therapy. IV. The effects of (E.), 311
- " remission in severe obsession-compulsion neurosis of five years' duration. Zeifert, M. (E.), 463
- " shock therapy, consequences of (E.), 287
- " " " in schizophrenia, an analysis of results in the. Coloub, H. O., and Wadsworth, G. L. (E.), 466
- " (shock), electrocardiographic studies in (E.), 311
- " tests of psychomotor efficiency in patients treated with, by J. J. O'Connell and L. S. Penrose, 183
- " therapy, effects of insulin and, on cerebro-spinal fluid proteins. Kingsley, G. R., and Freed, H.
- " " " memory defects during. Ziskind, E. (E.), 456
- " " " the use of curare in modifying. Gray, R. F., Spradling, F. L., and Fechner, A. H. (E.), 473
- " treatment and control, observations of schizophrenia, comparative study of (E.), 122
- Micropthalmia with mental deficiency, the association of hereditary (E.), 279
- Migraine equivalents (E.), 287
- " the treatment of (E.), 310
- MILLER, E., The Neuroses in War (R.), 443
- Mind, the Human, by M. Mackenzie (R.), 442
- Mongolian idiocy and phenylpyruvic oligophrenia, brain metabolism in (E.), 280
- " " " " " cerebral metabolism in. Himwich, H. E., and Fazekas, J. F. (E.), 450
- Mongolism, the central nervous system in (E.), 280
- " function of the thyroid and the pituitary in (E.), 154
- Morphinism on the sympathetic ganglion cells of rabbits, effect of chronic (E.), 150
- Multiple sclerosis, artificial fever therapy in (E.), 135
- MYERS, C. R., Toward Mental Health in School (R.), 443
- Narcosis and thermal paralysis of nerve (E.), 305
- " produced by hypnotics, sedatives, antipyretics and such combinations, the depth of (E.), 309
- Narcotics on the carotid sinus reflex zone, effect of (E.), 149
- Negative after-images of hallucinated colours in hypnosis, an experimental investigation of (E.), 132
- Nerve centres, further observations on the excitability of bulbar. Barry, D. T., and Loughman, O. T. D. (E.), 460
- " stimulation in human pathology, chemical factors of (E.), 306

- Nervous excitability, nutrition and (E.), 304
 „ functions in the post-natal period, the development of the general (E.), 145
 „ stimulation in man, chemical nature of (E.), 307
 „ system, biochemistry of the (E.), 306
- Nervousness, the concept of (E.), 147
- Neuroses in War, The, by E. Miller (R.), 443
- Neurosis of five years' duration, metrazol remission in severe obsession-compulsion. Zeifert, M. (E.), 463
- Neurosyphilis, by C. Worster-Drought (R.), 277
 „ recent advances in the aetiology and treatment of, by E. L. Hutton, 1
- Obsessive state, physiological aspects of the. Brickner, R. M., Rosner, A. A., and Munro, R. (E.), 476
- Occupational Therapy, The Theory of, by N. A. Haworth and E. M. Macdonald (R.), 444
 „ „ utilization of wastes in. Wilson, J. G. (E.), 471
- O'CONNELL, J. J., and PENROSE, L. S., tests of psychomotor efficiency in patients treated with metrazol, 183
- Oculomotor nerve and reflex dilatation of pupil (E.), 138
- Officers in the 1914-1918 war, psychoses in, by H. Baird, 109
- Olivio-ponto-cerebellar atrophy, degeneration of the basal ganglia associated with. Aring, C. D. (E.), 464
- Orientation (E.), 291
- Oxygen consumption in the psychoses of the senium (E.), 285
 „ „ in vitro of brain cortex, kidney and skeletal muscle from adrenalectomized rats, the (E.), 153
