Corrigendum

On p. 611 of Continuing Commentary by Martin Davis [*BBS* 16(3) 1993] on Roger Penrose's "Précis of *The emperor's new mind: Concerning computers, minds, and the laws of physics*" [*BBS* 13(4) 1990] the author neglected to note that the quotation from Gödel in the cited book by Rudy Rucker had originally been obtained by Rucker from Hao Wang's (1974) *From mathematics to philosophy*, Routledge & Kegan Paul; Humanities Press, p. 324.
