

SATANIC POSSESSION AND INSANITY.

The following letter from the sister of a patient in the Royal Edinburgh Asylum, Morningside, addressed to Dr. Elkins, shows that the belief in demoniacal possession—once universal—still retains its hold in some quarters:—

DEAR SIR,—Thanks for your minute description of my afflicted brother's condition. He is naturally too quiet; but, sir, I would like you to believe and understand that he is possessed by an evil spirit, and by God's blessing if you would try the experiment of taking great believers of all Christian denominations to his bed, notwithstanding the raving, he would soon get better. It is not he that speaks or acts, it is the evil spirit, though loathing in such cases is natural.
