

Earth and Environmental Science

Transactions of the Royal Society of Edinburgh

volume 101 part 1 2010

Osteology of *Leptopleuron lacertinum*, a parareptile from the Upper Triassic of Scotland

Cranial anatomy of new rhynchosaur from the Upper Triassic of southern Brazil

Fluid inclusion studies of Irish granites

Anatomy of the basal turtle *Eileanchelys waldmani* from the Middle Jurassic of the Isle of Skye

Published by The RSE Scotland Foundation, 22–26 George Street, Edinburgh EH2 2PQ

The Royal Society of Edinburgh is committed to the widespread dissemination of scientific knowledge and has published the *Transactions of the Royal Society of Edinburgh* since 1785, when James Hutton's 'Theory of the Earth' was published in volume 1. The journal evolved to the *Transactions of the Royal Society of Edinburgh: Earth Sciences* in 1980 and is now (as from 2007) the *Earth and Environmental Science Transactions of the Royal Society of Edinburgh*. Through this journal, the Society continues to encourage and support the international Earth and Environmental Science communities by:

- publishing a journal of international standing and authorship;
- publishing substantial papers on all scientific aspects of the earth and its surface environments;
- publishing without page charges;
- reproducing photographs and artwork to the highest standard, where appropriate at a size larger than is customary; and
- aiming to have papers reviewed within three months by at least two referees of international standing; usually publishing within six months of acceptance.

The Editorial Board welcomes original manuscripts in the Earth and Environmental Sciences. It also welcomes proposals for Special Issues in these areas.

Editorial Board

Paul BISHOP
(Chairman & Editor-in-Chief)
University of Glasgow

Maggie GILL
