BRITISH JOURNAL OF NUTRITION

Volume: 108

Supplement 1

August 2012

An International Journal
of Nutritional Science

Supplement

The nutritional value and health benefits of pulses for obesity, diabetes, heart disease and cancer
Supplement Editors: Carla Taylor, Jon Buckley, Martine Champ, Carol Ann Patterson

Aims and Scope

The *British Journal of Nutrition* is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialities involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The *British Journal of Nutrition* is published twice monthly by Cambridge University Press on behalf of
The Nutrition Society.

The *British Journal of Nutrition* is available online to subscribers at journals.cambridge.org/bjn
Tables of contents and abstracts are available free at the same website.

Editor-in-Chief

P C Calder, *School of Medicine, University of Southampton, Southampton, UK*

Deputy Editors

F Bellisle, *INRA, University of Paris, Bobigny, France*

D R Jacobs Jr, *School of Public Health, University of Minnesota, Minneapolis, MN, USA*

R J Wallace, *Gut Health Programme, Rowett Institute of Nutrition and Health, University of Aberdeen, Aberdeen, UK*

S J Whiting, *College of Pharmacy and Nutrition, University of Saskatchewan, Saskatoon, Sask., Canada*

Reviews Editors

D J Millward, *Faculty of Health and Medical Sciences, University of Surrey, UK*

P Aggett, *School of Medicine and Health, Lancaster University, Lancaster, UK*

Systematic Reviews Editor

M Makrides, *Women's and Children's Health Research Institute and University of Adelaide, Adelaide, Australia*

Supplements Editor

J Woodside, *Nutrition and Metabolism Group, Centre for Public Health, Queen's University, Belfast, UK*

Publications Staff

C Goodstein (*Publications Manager*), C Jackson (*Deputy Publications Manager*), L Weeks,
H Zdravics and C T Hughes (*Publications Officers*) and S Hui and D Owen (*Publications Assistants*)

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its applications to the maintenance of human and animal health.

Application of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Tel: +44 (0)20 7602 0228, Fax: +44 (0)20 7602 1756, Email: office@nutsoc.org.uk

British Journal of Nutrition
Volume 108 Supplement 1 August 2012

**The nutritional value and health benefits of pulses for obesity,
diabetes, heart disease and cancer**

Supplement Editors

Carla Taylor

Professor, Department of Human Nutritional Sciences, University of Manitoba & Canadian Centre for Agri-food Research in Health and Medicine, Winnipeg, Manitoba, Canada

Jon Buckley

Associate Professor Jonathan Buckley, Nutritional Physiology Research Centre, Sansom Institute for Health Research, University of South Australia

Martine Champ

Deputy Director of the Human Nutrition Centre of Nantes, Scientist at Research Unit "Physiology of Nutritional Adaptations", INRA/University of Nantes, France

Carol Ann Patterson

Managing Editor, The Pathfinders Research & Management Ltd, Saskatoon, Saskatchewan, Canada

Pulse Canada 

**Agriculture et
Agroalimentaire Canada**

**Agriculture and
Agri-Food Canada**

This material has been made possible through Agriculture and Agri-Food Canada's Agricultural Flexibility Fund, as part of Canada's Economic Action Plan.

Opinions expressed in this document are those of the British Journal of Nutrition and not necessarily those of AAFC.

Contents

Preface

The nutritional value and health benefits of pulses in relation to obesity, diabetes, heart disease and cancer.

J. Curran

S1–S2

Reviews on Specific Pulses

Review of the health benefits of peas (*Pisum sativum* L.).

W. J. Dahl, L. M. Foster & R. T. Tyler

S3–S10

Nutritional quality and health benefits of chickpea (*Cicer arietinum* L.): a review.

A. K. Jukanti, P. M. Gaur, C. L. L. Gowda & R. N. Chibbar

General Impact of Pulse Consumption

Pulse consumption in Canadian adults influences nutrient intakes.

A. N. Mudryj, N. Yu, T. J. Hartman, D. C. Mitchell, F. R. Lawrence & H. M. Aukema

S27–S36

Dietary dry bean effects on hepatic expression of stress and toxicity-related genes in rats.

E. L. Daniell, E. P. Ryan, M. A. Brick & H. J. Thompson

S37–S45

Impact of Pulses Obesity/Satiety, Glycemic Response, Metabolic Syndrome and CVD Risk Factors

Pulse grain consumption and obesity: effects on energy expenditure, substrate oxidation, body composition, fat deposition and satiety.

C. P. F. Marinangeli & P. J. H. Jones

S46–S51

Phaseolus beans: impact on glycaemic response and chronic disease risk in human subjects.

A. M. Hutchins, D. M. Winham & S. V. Thompson

S52–S65

Edible dry bean consumption (*Phaseolus vulgaris* L.) modulates cardiovascular risk factors and diet-induced obesity in rats and mice.

Z. Zhu, W. Jiang & H. J. Thompson

S66–S73

The effect of yellow pea protein and fibre on short-term food intake, subjective appetite and glycaemic response in healthy young men.

C. E. Smith, R. C. Mollard, B. L. Luhovyy & G. H. Anderson

S74–S80

Metabolism and performance during extended high-intensity intermittent exercise after consumption of low- and high-glycaemic index pre-exercise meals.

C. B. Bennett, P. D. Chilibeck, T. Barsis, H. Vatanparast, A. Vandenberg & G. A. Zello

S81–S90

Assessment of the mechanisms exerting glucose-lowering effects of dried peas in glucose-intolerant rats.

K. A. Whitlock, L. Kozicky, A. Jin, H. Yee, C. Ha, J. Morris, C. J. Field,

R. C. Bell, J. A. Ozga & C. B. Chan

S91–S102

A pulse-based diet is effective for reducing total and LDL-cholesterol in older adults.

S. Abeysekara, P. D. Chilibeck, H. Vatanparast & G. A. Zello

S103–S110

Regular consumption of pulses for 8 weeks reduces metabolic syndrome risk factors in overweight and obese adults.

R. C. Mollard, B. L. Luhovyy, S. Panahi, M. Nunez, A. Hanley & G. H. Anderson

S111–S122

Anti-carcinogenic Effects of Pulses

In vitro investigations of the potential health benefits of Australian-grown faba beans (*Vicia faba* L.): chemopreventative capacity and inhibitory effects on the angiotensin-converting enzyme, α -glucosidase and lipase.

S. D. Siah, I. Konczak, S. Agboola, J. A. Wood & C. L. Blanchard

S123–S134

The anti-proliferative effect of TI1B, a major Bowman–Birk isoinhibitor from pea (*Pisum sativum* L.), on HT29 colon cancer cells is mediated through protease inhibition.

A. Clemente, M. C. Marín-Manzano, E. Jiménez, M. C. Arques & C. Domoney

S135–S144

Non-digestible fraction of beans (*Phaseolus vulgaris* L.) modulates signalling pathway genes at an early stage of colon cancer in Sprague–Dawley rats.

V.-C. Haydé, G.-G. Ramón, G.-O. Lorenzo, O. B. Dave, R.-C. Rosalía, W. Paul &

L.-P. Guadalupe

S145–S154

Metabolomic analysis of the effects of edible dry beans (*Phaseolus vulgaris* L.) on tissue lipid metabolism and carcinogenesis in rats.

M. M. Mensack, J. N. McGinley & H. J. Thompson

S155–S165
