JFM ARCHIVE

Journal of
Fluid Mechanics
Digital Archive
1956–1996

*Vital research from
the definitive source*

The JFM Digital Archive contains every article from the first 40 years of the journal, scanned and digitised to the highest standards.

Please speak to your librarian about gaining access.

The ANZIAM Journal

Published for the Australian Mathematical Society

Editors-in-Chief

A. Bassom, *The University of Western Australia, Australia*

G. C. Hocking, *Murdoch University, Australia*

The ANZIAM Journal considers papers in any field of applied mathematics and related mathematical sciences with the aim of rapid publication in print and electronic formats. Novel applications of mathematics in real situations are especially welcomed. All papers should include some indication of applicability, and an introduction that can be understood by non-specialist readers from the whole applied mathematical community.

Proceedings of the Edinburgh Mathematical Society

Published for The Edinburgh Mathematical Society

Editorial Management

The Secretary, *ICMS, Edinburgh, UK*

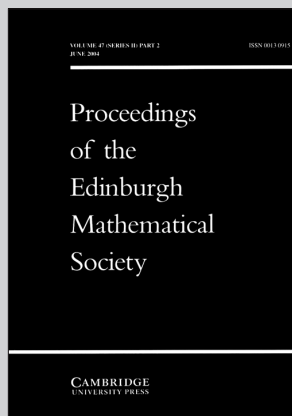

The Edinburgh Mathematical Society was founded in 1883 and over the years, has evolved into the principal society for the promotion of mathematics research in Scotland. The Society has published its Proceedings since 1884. This journal contains research papers on topics in a broad range of pure and applied mathematics, together with a number of topical book reviews.

Glasgow Mathematical Journal

Published for The Glasgow Mathematical Journal Trust

Editor-in-Chief

I. A. B. Strachan, *University of Glasgow, UK*

Glasgow Mathematical Journal publishes original research papers in any branch of pure and applied mathematics. An international journal, its policy is to feature a wide variety of research areas, which in recent issues have included ring theory, group theory, functional analysis, combinatorics, differential equations, differential geometry, number theory, algebraic topology, and the application of such methods in applied mathematics.
