

## Acknowledgments to *JINS* External Reviewers, 2013

The success of *JINS* as a scientific journal depends on thoughtful, honest, and prompt peer review. Such review would be impossible without the extensive help of colleagues. We wish to acknowledge the following reviewers for manuscripts reviewed between September 1, 2012 and August 31, 2013, with sincere appreciation. Please note that, occasionally, because of the way time frames are figured, a reviewer's name might not appear in this year's list either because s/he was acknowledged previously, or will be thanked in the forthcoming cycle.
