DECCA AVIONICS FOR THE US COASTGUARD

Decca Loran-C navigation equipment has been chosen by the US Coastguard for their new fleet of ninety HH-65A helicopters.

The Decca ADL-82 equipment, designed for integration with the helicopter's Flight Management System, is the first airborne Loran-C receiver compatible with the MIL-STD-15538 multiplex digital interface.

The total value of this new contract, excluding spares and other options, will exceed \$1.5 million and follows the recent procurement of Decca Loran-C equipment for the US Coastguard fleet of forty one HU25A Falcon Jet aircraft.
