### **UNDEX Series "C"**

Compiled and edited by Milton Mittelman, Documents Library, Hunter College, N.Y.

Until now the process of locating the abstract of a United Nations document has required consummate skill and infinite patience. It has involved the careful search through no less than 1800 pages of entries scattered throughout the fifty separate issues of UNDEX published between 1974 and 1978.

To compound the challenge, corrigenda — which can significantly amend and alter the main document — frequently appear in a subsequent issue at least six months later. Now, with the publication of the five-year Cumulative Edition of Series "C", librarians and other professional and student users will find the information they seek readily and easily accessible.

The cumulative Edition has been expertly constructed from the original text to provide libraries with an indispensable finding aid to information on world affairs.

*By Harvey Kaye, Paul Plaia Jr.  
and Michael A. Hertzberg*

**A Powerful Guide For Keeping Fully  
Abreast of International Trade Matters**

Today more than ever, you need sound information before handling any foreign trade situation.

We believe *INTERNATIONAL TRADE PRACTICE* will provide the answers you need in this critical area. Vital for practitioners whose clients include manufacturers, importers, distributors, retailers, trade unions, licensees and licensors. It clearly rivals all other reference sources on the subject. It not only covers in depth how cases before the International Trade Commission are handled, it also details judicial review and practice before other federal agencies involved in the administration of foreign trade.

The Tariff Act of 1930, the Trade Act of 1974, and the Trade Agreement Act of 1979 are but a sample of the areas receiving authoritative guidance.
