

## THE A.R. BERGSTROM PRIZE IN ECONOMETRICS, 2007

Applications are now being sought for the eighth **A.R. Bergstrom Prize in Econometrics**.

The objective of the Prize is to reward the achievement of excellence in econometrics, as evidenced by a research paper in any area of econometrics. The Prize is open to New Zealand citizens or permanent residents of New Zealand who, on the closing date of applications, have current or recent (i.e., within two years) student status for a higher degree. It is intended that the awardee will utilize the proceeds to assist in financing further study or research in econometrics in New Zealand or overseas.

The Prize can be awarded once every two years, with its value currently being \$1500. The selection committee will consist of Professors P.C.B. Phillips, V.B. Hall, and their nominees.

Applications/nominations must include:

- a formal letter of application and, in the case of students, a letter of nomination by their research adviser or chairperson
- 4 copies of a research paper written by a single author, reporting original research in any area of econometrics
- a CV and relevant academic transcripts

Applications should be sent, **by 1 June 2007**, to:

Professor V.B. Hall  
School of Economics and Finance  
Victoria University of Wellington  
P.O. Box 600  
NEW ZEALAND  
E-mail: viv.hall@vuw.ac.nz
