

## Erratum

Brosnan, J. T. and G. K. Breeden. 2012. Application placement affects postemergence smooth crabgrass (*Digitaria ischaemum*) and annual bluegrass (*Poa annua*) control with indaziflam. Weed Technol. 26:661–665.

There was a typographical error in the Introduction. The following sentence should read: “McCurdy et al. (2009) reported large crabgrass [*Digitaria sanguinalis* (L.) Scop.] and yellow nutsedge (*Cyperus esculentus* L.) control was **greatest** for soil-only and **soil-plus-foliar** applications of mesotrione at 0.14 and 0.28 kg ai ha<sup>-1</sup> when evaluated 56 d after treatment (DAT).” The authors apologize for this error.
