# Life Sciences

Books and Journals from  
Cambridge University Press

Cambridge is one of the leading publishers in ecology and conservation biology and publishes high quality texts and research across the breadth of the life sciences, focusing particularly on animal behaviour, biological anthropology, evolutionary biology, computational and systems biology, as well as statistics and professional development titles for biologists.

We also have an extensive portfolio of established journals in agriculture, ecology and conservation, and animal science.

# Medicine

Books and Journals from  
Cambridge University Press

The Cambridge Medicine programme focuses its book publishing in a defined set of core clinical areas with our great strength in the clinical brain sciences. Other specialties of significant focus include reproductive medicine/obstetrics and gynaecology, anaesthesia and critical care, emergency medicine and pathology.

Our journals programme covers a broad spectrum of medical disciplines including emergency and disaster medicine, epidemiology and infectious diseases, biomedical science, genetics, nutrition, mental health and psychiatry, and neuroscience.

We partner with many learned societies including The Society for Healthcare Epidemiology of America, and the Neuroscience Education Institute, and the Royal College of Obstetricians and Gynaecologists.

## Parasitology

**Back volumes.** Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

**Copying.** This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/2018 \$16.00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

**ISI Tear Sheet Service.** 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

**For all other use,** permission should be sought from Cambridge or the American Branch of Cambridge University Press.

**Claims** for missing issues can only be considered if made immediately after receipt of the subsequent issue.

**Advertising.** Details of advertising in *Parasitology* may be obtained from the publisher.

**Online submission.** Authors are encouraged to submit their manuscripts online. Go to <http://mc.manuscriptcentral.com/par/> to open an author's account for *Parasitology*. Manuscript Central is helping to improve the speed of the publication process for the journal.

**Front Cover illustration:** A schematic illustration of direct and indirect effects of helminths and their products on host immune cells. As shown here, apoptosis occurs in various immune cells during infection with helminths. Helminth-induced apoptosis plays an essential role in parasite survival not only through suppression of anti-parasite immunity, but also via inhibition of immune-mediated tissue injury. From Zakeri, Vol. 144 (13) pp. 1663–1676.

# PARASITOLOGY

## CONTENTS

### REVIEW ARTICLE

- Epidemiological, clinical and laboratory aspects of human visceral leishmaniasis (HVL) associated with human immunodeficiency virus (HIV) coinfection: a systematic review**  
Iolanda Graepp Fontoura, David Soeiro Barbosa, Antonio Marcus de Andrade Paes, Floriacy Stabnow Santos, Marcelino Santos Neto, Volmar Morais Fontoura, Jackson Mauricio Lopes Costa and Ana Lúcia Abreu Silva 1801

### CORRIGENDUM

- Epidemiological, clinical and laboratory aspects of human visceral leishmaniasis (HVL) associated with human immunodeficiency virus (HIV) coinfection: a systematic review – CORRIGENDUM**  
Iolanda Graepp Fontoura, David Soeiro Barbosa, Antonio Marcus de Andrade Paes, Floriacy Stabnow Santos, Marcelino Santos Neto, Volmar Morais Fontoura, Jackson Mauricio Lopes Costa and Ana Lúcia Abreu Silva 1819

### REVIEW ARTICLE

- CYP51 as drug targets for fungi and protozoan parasites: past, present and future**  
Galina I. Lepesheva, Laura Friggeri and Michael R. Waterman 1820

### RESEARCH ARTICLE

- Comparison of parasite loads in serum and blood samples from patients in acute and chronic phases of Chagas disease**  
Carolina Hernández, Anibal Teherán, Carolina Flórez and Juan David Ramírez 1837

### CORRIGENDUM

- Comparison of parasite loads in serum and blood samples from patients in acute and chronic phases of Chagas disease – CORRIGENDUM**  
Carolina Hernández, Anibal Teherán, Carolina Flórez and Juan David Ramírez 1844

### RESEARCH ARTICLES

- Re-evaluation of endogenous development of *Eimeria bareillyi* Gill, Chhabra and Lall, 1963 in water buffalo (*Bubalus bubalis*)**  
J.P. Dubey 1845

- A new microsporidium *Percutemincola moriokae* gen. nov., sp. nov. from *Oscheius tipulae*: A novel model of microsporidia–nematode associations**  
Kenji Nishikori, Davin H. E. Setiamarga, Takahiro Tanji, Eisuke Kuroda, Hirohisa Shiraishi and Ayako Ohashi-Kobayashi 1853

- Inhibition of *ex vivo* erythropoiesis by secreted and haemozoin-associated *Plasmodium falciparum* products**  
Daniela Boehm, Lydia Healy, Sarah Ring and Angus Bell 1865

- Host community heterogeneity and the expression of host specificity in avian haemosporidia in the Western Cape, South Africa**  
Sharon M. Jones, Graeme S. Cumming and Jeffrey L. Peters 1876

- In vitro* ovicidal and larvicidal activities of some saponins and flavonoids against parasitic nematodes of goats**  
Acidália Carine Vieira Santos, Francianne Oliveira Santos, Hélimar Gonçalves Lima, Gisele Dias Da Silva, Rosângela Soares Uzêda, Éuder, Reis Dias, Alexsandro Branco, Klauber Viana Cardoso, Jorge Mauricio David, Mariana Borges Botura, Sílvia Lima Costa and Maria José Moreira Batatinha 1884

- Development of a sensitive immunochromatographic kit using fluorescent silica nanoparticles for rapid serodiagnosis of amebiasis**  
Hiroshi Tachibana, Azumi Kakino, Makoto Kazama, Meng Feng, Satomi Asai, Kazuo Umezawa, Tsukasa Nozaki, Takashi Makiuchi, Takayuki Kamada, Hideki Watanabe, Noriyuki Horiki, Xunjia Cheng and Gohta Masuda 1890

- Host-mediated RNAi of a Notch-like receptor gene in *Meloidogyne incognita* induces nematode resistance**  
Deshika Kohli, Parameswaran Chidambaramathan, J. Prasanth Tej Kumar, Ashish Kumar Singh, Anil Kumar, Anil Sirohi, K. Subramaniam, Ramamurthy Srinivasan, Navneeta Bharadvaja and Pradeep K. Jain 1896

- Identification of novel therapeutic candidates in *Cryptosporidium parvum*: an *in silico* approach**  
Chinmaya Panda and Rajani Kanta Mahapatra 1907

- Spirocerca vulpis* sp. nov. (Spiruridae: Spirocercidae): description of a new nematode species of the red fox, *Vulpes vulpes* (Carnivora: Canidae)**  
Alicia Rojas, Gloria Sanchis-Monsonis, Amer Alić, Adnan Hodžić, Domenico Otranto, Daniel Yasur-Landau, Carlos Martínez-Carrasco and Gad Baneth 1917

- Molecular phylogeny based on six nuclear genes suggests that *Echinococcus granulosus sensu lato* genotypes G6/G7 and G8/G10 can be regarded as two distinct species**  
Teivi Laurimäe, Liina Kinkar, Epp Moks, Thomas Romig, Rihab A. Omer, Adriano Casulli, Gérald Umhang, Guna Bagrade, Malik Irshadullah, Mitra Sharbatkhori, Hossein Mirhendi, Francisco Ponce-Gordo, Silvia V. Soriano, Antonio Varcasia, Mohammad Rostami-Nejad, Vanessa Andresiuk and Urmas Saama 1929

- Analysis of *Leishmania* mimetic neoglycoproteins for the cutaneous leishmaniasis diagnosis**  
Lígia Moraes Barizon de Souza, Vanete Thomaz Socol, Ricardo Rasmussen Petterle, Michelle D. Bates and Paul A. Bates 1938

- A new pathogen spillover from domestic to wild animals: *Plasmodium juxtannucleare* infects free-living passerines in Brazil**  
Francisco C. Ferreira-Junior, Daniela de Angeli Dutra, Patrícia Silveira, Richard Campos Pacheco, Rute Witter, Dirceu Guilherme de Souza Ramos, M. Andreina Pacheco, Ananias A. Escalante and Érika M. Braga 1949

- Mammomonogamus* nematodes in felid carnivores: a minireview and the first molecular characterization**  
Barbora Červená, Kristýna Hrazdilová, Peter Vallo, Jennifer Ketzis, Pompei Bolfá, Edgar Tudor, Estevam G. Lux-Hoppe, Caroline Blanvillain and David Modrý 1959

- Multi-locus phylogenetics of the *Midichloria* endosymbionts reveals variable specificity of association with ticks**  
M. Buysse and O. Duron 1969

- Deciphering the behaviour manipulation imposed by a virus on its parasitoid host: insights from a dual transcriptomic approach**  
J. Varaldi and D. Lepetit 1979
