# THE JOURNAL OF THE SOCIETY OF DAIRY TECHNOLOGY

17 DEVONSHIRE STREET, LONDON, W.1. Tel. Langham 5059

The Journal is issued in quarterly parts, four parts constituting a volume. The parts are usually issued in January, April, July and October each year.

The Subscription rate to non-members of the Society, payable in advance, is £2. 12s. 0d. net per volume (post free): single numbers, 15s. 0d. net. Subscriptions and all business enquiries should be sent to the Secretary, Society of Dairy Technology, 17 Devonshire Street, London, W. 1.

Each member of the Society receives one free copy of each number. One further copy of each number may (if available) be bought by members for 10s. 0d.

## CONTENTS OF THE OCTOBER ISSUE

### Spring Conference

Subject: A General Review

Agriculture in Northern Ireland, with Particular Reference to Dairying by J. C. H. WOODS

Marketing of Milk in Northern Ireland, by D. L. ARMSTRONG

Production of Milk Products in Northern Ireland, by S. BROADHURST

Some Bacteriological Surveys of Milk and Milk Products in Northern Ireland, by J. G. MURRAY

Dairy Education in Northern Ireland, by J. A. YOUNG

The Eradication of Brucellosis in Northern Ireland, by W. R. KERR and J. F. RANKIN

Microbiological Standards for Dairy Products, Part 2, by J. G. DAVIS

### Personalia

A Rapid Method for the Determination of Salt in Cheese, by G. T. Lloyd

Section Notes

*The Journal publishes not only papers read at meetings of the Society, but also papers on dairy technology by members and non-members*

## MEMORIAL TO DR A. T. R. MATTICK, C.B.E.

Readers of the *Journal of Dairy Research* will be pleased to know that the fund established to commemorate the work of Dr A. T. R. Mattick, C.B.E., a former editor of the *Journal* from 1933 to 1958 and distinguished Dairy Bacteriologist, is receiving generous support. The income from the memorial fund will be used to enable members of the research staff of the Institute to make visits, which would not otherwise be possible, to research centres in the United Kingdom or abroad or to specialist conferences. It might also be appropriate on occasion to invite a distinguished scientist to give a memorial lecture on a topic which would be of interest to people connected with dairying.

Former colleagues of Dr Mattick, and workers visiting the Institute during his term of office who have not been aware of the memorial fund, may still send their contribution to the Director, National Institute for Research in Dairying, Shinfield, Reading. Cheques should be crossed and made payable to 'N.I.R.D. Mattick Memorial Fund'.
