

Fe-family of superconductors: Influence of Ni dopant on the superconductivity in BaFe₂As₂ crystal and the relaxation volume- CORRIGENDUM

Jacques Soullard and Ilya G. Kaplan

doi: <https://doi.org/10.1557/adv.2019.412>, Published by Materials Research Society, 4 November 2019.

In regards to the original publication of this article [1], the authors would like to correct the following: In table 1, the clusters are in the wrong order. Cluster one should be “Fe₄NiAs₈Ba₄ cluster” and cluster two should be “Fe₅As₈Ba₄ cluster”.
