

THE EMPIRE JOURNAL OF EXPERIMENTAL AGRICULTURE

THIS JOURNAL offers agricultural research workers a medium for disseminating the records and results of their investigations on the feeding and management of livestock, cultivation and manuring of crops, trial of farm machinery, agricultural economics, and experimental techniques.

Vol. XXX. No. 119 CONTENTS

July 1962

GWILYM EVANS: Seed Rates of Grasses for Seed Production. II. Bred Varieties of Tall Fescue, Meadow Fescue, Cocksfoot (Hay Type), and Phalaris Hybrid.

J. E. JACKSON and R. C. FAULKNER: Studies in the Quality of Gezira Cottons. I. The Relationship Between Quality and Crop Earliness.

J. E. JACKSON, R. C. FAULKNER and D. K. DUTTA ROY: Studies in the Quality of Gezira Cottons. II. The Effect of Site, Nitrogen, and Spacing on Seed-Cotton Grade.

J. E. PEAT and K. J. BROWN: The Yield Responses of Rain-Grown Cotton, at Ukiriguru in the Lake Province of Tanganyika. I. The Use of Organic Manure, Inorganic Fertilizers, and Cotton-Seed Ash.

J. S. CAMPBELL, V. O. CHUKWUEKE, F. A. TERIBA and H. V. S. HO-A-SHU: Some Physiological Investigations into the White Lisbon Yam (*Dioscorea Alata* L.). II. Growth Period and Out of Season Production.

A. W. MOORE: The Influence of a Legume on Soil Fertility under a Grazed Tropical Pasture.

C. W. HEWITT and R. E. OSBORNE: Further Field Studies on Leaf Analysis of Lacatan Bananas as a Guide to the Nutrition of the Plant.

A. K. DUTT: Sulphur Deficiency in Sugar-Cane.

T. H. ROSE and W. DERMOTT: Micro-Nutrient Deficiencies in Arable Crops in Romney Marsh. II. Manganese Deficiency in Peas and Cereals.

CONTENTS

	PAGE
GORDON, I., WILLIAMS, G. and EDWARDS, J. The use of serum gonadotrophin (p.m.s.) in the induction of twin-pregnancy in the cow. (With Two Plates)	143
HENDERSON, J. L., EDWARDS, R. S. and HAMMERTON, J. L. The productivity of five grass species at six levels of compound fertilizer application. II. Crude-protein production. (With Ten Text-figures)	199
CUTHBERTSON, A. and POMEROY, R. W. Quantitative anatomical studies of the composition of the pig at 50, 68 and 92 kg. carcass weight. I. Experimental material and methods. (With Three Plates and Two Text-figures)	207
CUTHBERTSON, A. and POMEROY, R. W. Quantitative anatomical studies of the composition of the pig at 50, 68 and 92 kg. carcass weight. II. Gross composition and skeletal composition. (With Four Plates and Three Text-figures)	215
ROOK, J. A. F. and CAMPLING, R. C. Magnesium metabolism in the dairy cow. IV. The availability of the magnesium in various feedingstuffs. (With One Text-figure)	225
LAIRD, R., Jnr., and WALKER-LOVE, J. Supplementing high-yielding cows at pasture with concentrates fed at a level determined by milk yield and season. (With One Text-figure)	233
LAMPKIN, K. and HOWARD, D. A. Studies on the production of beef from zebu cattle in East Africa. IV. Variation in blood haemoglobin and its response to the feeding of dicalcium phosphate. (With Two Text-figures)	245
HOWARD, D. A., BURDIN, M. L. and LAMPKIN, G. H. Variation in the mineral and crude-protein content of pastures at Muguga in the Kenya highlands. (With Two Text-figures)	251
CUNNINGHAM, R. K. Mineral nitrogen in tropical forest soils. (With Two Text-figures)	257
WIDDOWSON, F. V., PENNY, A. and WILLIAMS, R. J. B. An experiment comparing urea-formaldehyde fertilizer with 'nitro-chalk' for Italian ryegrass	263
WARREN, R. G. and COOKE, G. W. Comparisons between methods of measuring soluble phosphorus and potassium in soils used for fertilizer experiments on sugar beet	269
WILLIAMS, R. J. B. and COOKE, G. W. Measuring soluble phosphorus in soils, comparisons of methods, and interpretation of results	275

The Journal of Agricultural Science is issued every other month in parts of about 136 pages with plates and figures, three parts constituting a volume. Two volumes yearly.

Quotations for available back volumes and parts may be obtained on application to the Cambridge University Press.

Papers for publication should be typewritten or written in a very legible hand, and may be sent to SIR JOHN HAMMOND, School of Agriculture, Cambridge, or to the associate Editors. Other communications should be addressed to the University Press, Cambridge.

If Plates in excess of one per 24 pages of text or coloured plates are submitted the author may be asked to bear the cost of such Plates.

The lettering on text figures should be clear of the illustration and indicating by blue pencilled lines the desired position.

Bibliography should be given under the heading of 'References' in the following form:

Surname of authors (in alphabetical order), initials, date of publication (in brackets), title of Journal (abbreviated according to the *World List of Scientific Periodicals*), volume and page of reference. In the text a reference should be quoted by the author's name and date (in brackets).

All names of Journals and books are set in italics; they should be indicated on the typescript by underlining.

Contributors will receive twenty-five copies of their papers free.

The subscription price, payable in advance, is 60s. net per volume (post free); single numbers 25s. net. Subscriptions may be sent to any bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

Subscription price in the U.S.A. is \$11.50 per volume; single number \$4.25. Enquiries should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, N.Y.
