

*Cleanly, Active, and Efficient preparations of*

## THE THYROID GLAND.

**MYXŒDEMA.**—The continued success attending the new line of treatment in Myxœdema and allied diseases by Extract of Thyroid Gland will doubtless further extend the uses of this valuable therapeutic agent. Since 1891 a sufficient number of patients have been to all appearances so restored to health that it is allowable to believe that they can hardly relapse again.

**SPORADIC CRETINISM.**—To illustrate well the vast improvement, both physical and mental, which this form of treatment induces in sporadic cretinism, we cannot do better than refer the reader to an original article which appeared in "The Lancet," with photographs by W. W. O—, M.D.Oxon., M.R.C.P.Lond., Nov. 4th, 1893, p. 1113.

All these cases were treated by Allen and Hanburys' Thyroidin Tabellæ. The results are perhaps more remarkable than those obtained in the allied condition of Myxœdema. The writer observes that these preparations have given entire satisfaction. The Photographs speak for themselves.

**CHRONIC PSORIASIS.**—The success attending the use of Thyroid Extract in Myxœdema, shown strikingly in the changes that occur in the skin, has suggested its use in cases usually known as *chronic psoriasis*, and wonderfully successful results appear to have been obtained with ALLEN & HANBURY'S Thyroidin Tabellæ.

In a recent number of "The Lancet" three of these cases are reported. After treatment with iodide of potassium and arsenic internally, and chrysophanic acid ointment locally, showed no improvement, but, on the other hand, the disorder was in some cases aggravated, developing a general dermatitis of the face with febrile disturbance.

But on the Treatment being changed, and TABELLÆ OF THYROID GLAND (ALLEN & HANBURY'S) being administered, the writer observes: Case 1.—"The improvement was very striking . . . the scales were completely gone, and all that was left was a slight discoloration of the skin where the disease had appeared." Case 2.—"The scalp and limbs were nearly clear. . . . The patient, who has suffered from the disease for 19 years past, has had no discomfort from the remedy, and says that nothing has ever acted so rapidly upon his disease." Case 3.—"The result was astonishing, for in three days there was a marked improvement, and no further spread of the disease had taken place. No discomfort was experienced from the remedy."

For full details of the above quotations see "The Lancet," Jan. 6th, 1894, p. 19.

Whilst formerly liquid extracts and the raw gland were used, ALLEN & HANBURY'S were the first to offer the active principles of the thyroid gland in the *compressed form*, which is now the favourite mode of administration, and their preparations of Thyroidin were introduced to the medical profession in the advertising columns of "The Lancet" on February 25th, 1893. Careful study and subsequent experience in the mode of preparation, under the guidance and direction of some of the leading members of the medical profession, have enabled them to produce Thyroidin—*i.e.*, the active principles isolated from carefully selected glands. The glands are dissected and carefully examined and separated from all *blood, fat, and inert tissue, which readily decompose* and produce gastric disturbances, vomiting, &c., and which give to some preparations on the market a most repulsive smell, especially when they have been kept for a short time.

THYROIDIN TABELLÆ readily disintegrate when swallowed, and from their shape and size are taken without difficulty. If preferred, they may be dissolved in a little water before being swallowed. One Tabella equals 5 grs. of gland. Dose, 1 or 2.

THYROIDIN CACHETS.—Each Cachet contains 5 grains of Thyroidin. Dose, 1 or 2. A very suitable and convenient mode of taking Thyroidin.

"A very elegant cachet."—*Medical Magazine.*

ELIXIR THYROIDIN is a very palatable, slightly sweet preparation, of which one fluid ounce represents one gland (average). It will be found to keep well without change. Dose, 1 to 4 fluid drachms.

*Medical Opinions on Allen and Hanburys' Thyroidin Preparations.*

*The Medical Press and Circular* writes, Oct. 25th, 1893:—"These are manufactured with the care and attractive form for which this firm is celebrated, and the results have answered our most sanguine anticipation."

"Elegant pharmaceutical preparations. Thyroidin contains the active elements of the gland in a very concentrated form, and it is therefore very convenient for administration."—*Medical Magazine.*

"We can highly recommend them to our readers."—*Edinburgh Medical Journal.*

"Active and therapeutically valuable."—*Practitioner.*

"Typical specimens of elegant pharmacy in its latest developments."—*The Chemist & Druggist.*

"Thyroidin Elixir has an agreeable flavour and appears to keep very well."—*British Medical Journal.*

The above are put up in 1s., 2s. 6d., and 4s. 6d. packages (retail), or 8s., 21s., and 40s. per doz. to the Profession. Samples supplied to the Profession on application.

**ALLEN & HANBURY'S Ltd.,**

PLOUGH COURT, LOMBARD STREET, LONDON.

Laboratories and Warehouse: Bethnal Green, London.

**MALE NURSES'**  
**(TEMPERANCE)**

**H**OME FOR PATIENT with Medical Man experienced in mental disorders. Pleasantly situated, comfortable quarters. —Address, A. H. N., Ardlin House, Haywards Heath.

## CONTENTS OF No. 174.—JULY, 1895.

Daniel Hack Tuke, M.D.—By WILLIAM W. IRELAND.

### PART I.—ORIGINAL ARTICLES.

- E. Marriott Cooke, M.B.—A Review of the last Twenty Years at the Worcester County and City Lunatic Asylum, with some conclusions derived therefrom.  
C. Hubert Bond, M.B.—Atrophy and Sclerosis of the Cerebellum.  
John J. Cowan, M.B.—Notes on a Case of Cerebral Hemiatrophy.  
Hubert C. Bristowe, M.D.—A Further Contribution on the Relationship between Chronic Renal Disease and General Paralysis of the Insane.  
George M. Robertson, M.B.—Sanity or Insanity? A brief account of the Legal and Medical Views of Insanity, and some practical difficulties.  
Charles Mercier, M.B.—Collective Investigation in Mental Diseases.  
Reginald Farrar, M.D.—On the Clinical and Pathological Relations of General Paralysis of the Insane.  
Clinical Notes and Cases.—Case of General Paralysis occurring in a Girl aged Nine-and-three-quarter Years; by EDWIN L. DUMS, M.B.—Notes on a Case of Ataxic Insanity; by JAS. VINCENT BLACHFORD, M.B.—Notes of a Case of Removal of Foreign Bodies from the Vagina; by W. RUSSELL STRAPP, M.B.—Acute Mania in a Case of Pelvic Cellulitis; by J. CHRISTIAN SIMPSON, M.B.  
Occasional Notes of the Quarter.—Collective Investigation.—Fair Play.—O'Reilly v. The Governors of Richmond Asylum.

### PART II.—REVIEWS.

Alleged Increasing Prevalence of Insanity in Scotland: Supplement to the Thirty-sixth Annual Report of the General Board of Commissioners in Lunacy for Scotland.—The Insane and the Law; by G. PITT-LEWIS, Q.C., R. PERCY SMITH, M.D., and J. HAWKE, B.A.—The Foundations of Belief, being Notes Introductory to the Study of Theology; by the Right Hon. ARTHUR JAMES BALFOUR.—The Etiology of Osseous Deformities of the Head, Face, Jaws, and Teeth; by EUGENE S. TALBOT, M.D.—Le Criminel-Type dans Quelques Formes Graves de la Criminalité; par ARTHUR MACDONALD.—Il Cervello in Relazione con i Fenomeni Psichici; by DOTT. GIOVANNI MINGOZZINI.—The Medical Annual and Practitioners' Index, 1895.—An Introduction to Comparative Psychology; by C. LLOYD MORGAN.—Les états intellectuels dans la Mélancolie; par GEORGES DUMAS.

### PART III.—PSYCHOLOGICAL RETROSPECT.

1. German Retrospect; by WILLIAM W. IRELAND, M.D.
2. Education of Idiots and Imbeciles in Scandinavia.
3. Insanity among Criminals.

### PART IV.—NOTES AND NEWS.

General Meeting of the Medico-Psychological Association.—Meeting of the South-Western Division.—Meeting of the Irish Division.—Fire at the Oxford County Asylum.—Sir John Bucknill.—Dr. Hack Tuke and the "After-Care" Association.—Louis Florentin Calmell.—Correspondence.—Errata.—Gaskell Prize.—Examinations.—Pass Lists.—Future Meetings.—Paul Testimonial.—Hack Tuke Memorial.—Appointments, etc.

## CONTENTS OF No. 175.—OCTOBER, 1895.

### PART I.—ORIGINAL ARTICLES.

- David Nicolson, M.D.—Presidential Address, delivered at the Fifty-fourth Annual Meeting.  
W. H. E. Rivers, M.D.—Experimental Psychology in Relation to Insanity.  
T. S. Clouston, M.D., and J. Batty Tuke, M.D.—Rest and Exercise in the Treatment of Nervous and Mental Disease.  
W. F. Robertson, M.D.—The Pathology of Milkiness, Thickening, and Opacity of the Pia-arachnoid in the Insane.  
L. C. Bruce, M.D.—On Thyroid Feeding, based upon the study of a second series of Sixty Cases.  
G. E. Shuttleworth, M.D.—Public Provision for Pauper Idiots and Imbeciles in England and Wales.  
A. R. Turnbull, M.D.—Some Remarks on the Feasible Feeding of Insane Patients.  
H. Maudsley, M.D.—Criminal Responsibility in Relation to Insanity.  
H. Kornfeld, M.D.—The Insanity of Love, a Study of Ariosto.  
Clinical Notes and Cases.—A Case of Ecchymosis associated with Insane Excitement; by W. R. DAWSON, M.D.—Severe Maniacal Excitement following the Administration of Salicylate of Soda; by G. B. ROBINSON, M.B.  
Occasional Notes of the Quarter.—The Annual Meeting.—British Medical Association.—Gratuities.—The Inquiry at the Holloway Sanatorium.—Modified Responsibility.—The Plea of Insanity.—A Monstrous Suggestion.—The New Rules of the English Commissioners.

### PART II.—REVIEWS.

The Colonization of the Insane; by Dr. ALBRECHT PARTZ.—Atlas of the Human Brain and the Course of the Nerve Fibres; by Dr. EDWARD FLATAU.—Lunacy Regulations (Ireland) Acts and Orders, with Forms and the County Court Acts and Rules; by J. M. COLLES, LL.D.—Commitment, Detention, Care, and Treatment of the Insane; Edited by G. ALDER BLUMER, M.D., and A. R. RICHARDSON, M.D.—Rapport et Mémoires sur l'éducation des Enfants normaux et anormaux; by E. SEGUIN.—The Treatment and Education of Mentally Feeble Children; by FLETSCHER BRACK, M.D.—The Female Offender; by Prof. LOMBROSO and W. FERRERO.—The Pathology of Insanity; by W. J. COLLINS, M.D.

### PART III.—PSYCHOLOGICAL RETROSPECT.

### PART IV.—NOTES AND NEWS.

Fifty-fourth Annual Meeting.—Educational Committee.—British Medical Association.—Recent Medico-Legal Cases.—The Clinical Research Association, Limited.—Note on a Heavy Brain.—Holloway Sanatorium.—Correspondence.—Rest and Exercise.—Examinations.—Winner of the Gaskell Prize.—Appointment.—Index to Vol. XLI.

# JOURNAL OF MENTAL SCIENCE.

JANUARY, 1896.

## CONTENTS.

### PART I.—ORIGINAL ARTICLES.

- Geo. H. Savage, M.D., and C. Mercier, M.B.—Insanity of Conduct.  
Ernest Septimus Reynolds, M.D.—Mental Symptoms occurring in Bodily Diseases.  
A. Maude, L.R.C.P.—Mental Changes in Graves' Disease.  
Henry Head, M.D.—Mental States Associated with Visceral Disease in the Sane.  
C. Hubert Bond, M.D.—Some Points in the Relation of Diabetes to Insanity.  
G. E. Shuttleworth, M.D.—The Surgical Treatment of Idiocy.  
T. Telford-Smith, M.D.—Cranicectomy, with the After-History of Two Cases. (*With Plates.*)  
R. Percy Smith, M.D.—Voluntary Boarders in English Asylums.
