

GEOGRAPHICAL INDEX

Page numbers are preceded by the volume number: thus '32.357' refs to volume 32, page 357.

Entries are arranged in alphabetical order of authors' names under the respective country or region. Authors are in bold preceded by the subject of the article in italics. Reviews are indicated by '(r)'; in these articles the author indexed is that of the book reviewed.

Articles that cover more than one country are indexed under the appropriate region, as indicated below.

Countries are indexed under the modern name of that country; thus an article on colonial policy in Tanganyika is indexed under Tanzania.
