As you will see above, this nationwide list is not very comprehensive and I should be very grateful if any member who is able and willing to help in this way could write to me,

giving me the relevant particulars, so that the list can be expanded.

College Policy on Serving of Alcoholic Beverages and Smoking

1. Alcohol

Council is not opposed to the moderate use of alcohol but it recognises that a proportion of College Members and Fellows do not drink alcohol, that harm arises from excessive drinking and from alcohol dependence, and that there is an apparently increased risk of alcohol problems in the medical profession. Council has therefore adopted the following policy concerning alcohol consumption:

(a) *The serving of alcoholic beverages at College functions*

Alcoholic beverages should never be the only beverages available at receptions, meals and other functions held under the auspices of the College or on College premises. A variety of non-alcoholic beverages must also be available and, where the beverages are for sale, some of the non-alcoholic beverages must be cheaper than the alcoholic beverages. Drinking water and non-calorific drinks should always be available. Further alcohol should not be pressed on people.

(b) *The serving of alcoholic beverages at meetings organised by College Members or Fellows*

When College Members or Fellows are involved in the organisation of academic meetings, training activities and other similar events which relate directly or indirectly to their work as psychiatrists, they should try to implement the recommendations contained in Section 1 as far as it is within their power or influence. Particularly when refreshments are being provided by a sponsor, College Members and Fellows should, if possible, liaise with the sponsor's representatives to ensure that they are aware of the recommendations and counsel strongly against the provision of such quantities of alcoholic beverages as might be conducive to excessive drinking.

2. Smoking

Smoking should not be allowed at meetings as the practice damages health and offends some persons.
