Invited opinion paper

Labatut, J.

Opinion paper: emerging markets, emerging strategies under the genomic revolution 735

Breeding and genetics

Gaspa, G., Jorjani, H., Dimauro, C., Cellesi, M., Ajmone-Marsan, P., Stella, A. and Macciotta, N. P. P.

Multiple-breed genomic evaluation by principal component analysis in small size populations 738

Samorè, A. B., Buttazzoni, L., Gallo, M., Russo, V. and Fontanesi, L.

Genomic selection in a pig population including information from slaughtered full sibs of boars within a sib-testing program 750

Guarini, A. R., Neves, H. H. R., Schenkel, F. S., Carvalheiro, R., Oliveira, J. A. and Queiroz, S. A.

Genetic relationship among reproductive traits in Nelore cattle 760

Ledoux, D., Ponsart, C., Grimard, B., Gatièn, J., Deloche, M. C., Fritz, S., Lefebvre, R. and Humblot, P.

Sire effect on early and late embryonic death in French Holstein cattle 766

Toffanin, V., Penasa, M., McParland, S., Berry, D. P., Cassandro, M. and De Marchi, M.

Genetic parameters for milk mineral content and acidity predicted by mid-infrared spectroscopy in Holstein–Friesian cows 775

Nutrition

Bastianelli, D., Bonnal, L., Jaguelin-Peyraud, Y. and Noblet, J.

Predicting feed digestibility from NIRS analysis of pig faeces 781

Goachet, A. G. and Julliand, V.

Implementation of field cardio-respiratory measurements to assess energy expenditure in Arabian endurance horses 787

Fortier, J., Deley, G., Goachet, A.-G. and Julliand, V.

Quantification of the energy expenditure during training exercises in Standardbred trotters 793

Nudda, A., Battacone, G., Bee, G., Boe, R., Castanares, N., Lovicu, M. and Pulina, G.

Effect of linseed supplementation of the gestation and lactation diets of dairy ewes on the growth performance and the intramuscular fatty acid composition of their lambs 800

Bernard, L., Leroux, C., Rouel, J., Delavaud, C., Shingfield, K. J. and Chilliard, Y.

Effect of extruded linseeds alone or in combination with fish oil on intake, milk production, plasma metabolite concentrations and milk fatty acid composition in lactating goats 810

Salah, N., Sauvant, D. and Archimède, H.

Response of growing ruminants to diet in warm climates: a meta-analysis (review) 822

Physiology and functional biology of systems

Banchero, G. E., Milton, J. T. B., Lindsay, D. R., Martin, G. B. and Quintans, G.

Colostrum production in ewes: a review of regulation mechanisms and of energy supply (review) 831

Smit, M. N., Spencer, J. D., Patterson, J. L., Dyck, M. K., Dixon, W. T. and Foxcroft, G. R.

Effects of dietary enrichment with a marine oil-based n-3 LCPUFA supplement in sows with predicted birth weight phenotypes on growth performance and carcass quality of offspring 838

Qin, Y., Qi, N., Tang, Y., He, J., Li, X., Gu, F. and Zou, S.

Isolation and identification of a high molecular weight protein in sow milk 847

Behaviour, welfare and health

Trocino, A., Filiou, E., Tazzoli, M., Birolo, M., Zuffellato, A. and Xiccato, G.

Effects of floor type, stocking density, slaughter age and gender on productive and qualitative traits of rabbits reared in collective pens 855

Lahrman, H. P., Oxholm, L. C., Steinmetz, H., Nielsen, M. B. F. and D'Eath, R. B.

The effect of long or chopped straw on pig behaviour 862

Lonardi, C., Scollo, A., Normando, S., Brscic, M. and Gottardo, F.

Can novel methods be useful for pain assessment of castrated piglets? 871

Fleming, P. A., Wickham, S. L., Stockman, C. A., Verbeek, E., Matthews, L. and Wemelsfelder, F.

The sensitivity of QBA assessments of sheep behavioural expression to variations in visual or verbal information provided to observers 878

Farming systems and environment

Jurjan, S., Germain, K., Juin, H. and Jondreville, C.

Plant and soil intake by organic broilers reared in tree- or grass-covered plots as determined by means of n-alkanes and of acid-insoluble ash 888

Sabatier, R., Teillard, F., Rossing, W. A. H., Doyen, L. and Tichit, M.

Trade-offs between pasture production and farmland bird conservation: exploration of options using a dynamic farm model 899

Kebebe, E. G., Oosting, S. J., Haileslassie, A., Duncan, A. J. and de Boer, I. J. M.

Strategies for improving water use efficiency of livestock production in rain-fed systems 908
