

Forthcoming Meetings

September 2000

19—23 19th Annual ESTRO Meeting Istanbul, Turkey

The scientific programme of the European Society of Therapeutic Radiology and Oncology includes a variety of different sessions ranging from special lectures, symposia, proffered papers and poster workshops to educational sessions. These sessions will offer the most recent advances in the field of radiation oncology, biology and physics, as well as related disciplines. Recent and significant developments in clinical radiotherapy have been selected by members of the ESTRO 2000 Scientific Committee, emphasising data generated in prospective randomised trials.
