PSA ESSAY CONTESTS

Each year the Philosophy of Science Association holds two essay contests, one for graduate students and one for recent Ph.D.s. The financial support for these contests has been made possible by the generosity of past presidents of the PSA.

Prize Winners for 1999. The prize for an essay submitted by a graduate student in 1999 was awarded to Scott Tanona for “The Anticipation of Necessity: Kant on Kepler’s Laws and Universal Gravitation,” which appeared in the September 2000 issue of *Philosophy of Science*. The Prize Committee for the 1999 submissions consisted of Lawrence Sklar (Chair), Margaret C. Morrison, and Robert A. Rynasiewicz. Their thoughtful work in judging the submissions is much appreciated. No prize was awarded in the recent Ph.D. category.

Contests for 2000. This year’s contests are currently in progress. Due to the change in Editors the notice was inadvertently omitted from the journal, but the contests were advertised on the web, in a mailing to members, and through the PSA listserv. We apologize for any confusion or inconvenience.

Graduate Student Contest for 2001. Essays may be on any topic in the philosophy of science, and should be submitted to the Editor-in-Chief of *Philosophy of Science* before December 1st, 2001. The prize-winning essay will be published in *Philosophy of Science* and the author will receive \$250.

The essay must be accompanied by a letter from the graduate department certifying that the author is a student in good standing. Co-authored papers are not eligible. Previously published papers are not eligible unless they appear in *Philosophy of Science* during the calendar year 2001. Authors are encouraged to format their essays in accordance with the Instructions for Authors found on the *Philosophy of Science* web site (see <http://www.indiana.edu/~philsci/submit.html>). Authors’ names will be removed and the essays then judged by a committee of three senior members of the PSA.

Recent Ph.D. Contest for 2001. A prize of \$250 will be awarded to the best article in Philosophy of Science written by someone who received the Ph.D. within the last five years. To be eligible for the contest, the paper must have a publication date during the year 2001. Papers in both the four regular issues and the special September Proceedings Supplement qualify.

To have an article entered into the competition, the author must supply proof that the Ph.D. degree was formally awarded between December 1st, 1996 and December 1st, 2001. The deadline for receipt of the affidavit in the Editorial Office is December 1, 2001. A reprint of the article will then be automatically forwarded to the judges.
