Temporal Bone Surgery Course

June 6–9, 2005
London, UK
 This is a four day intensive course to demonstrate drilling techniques and to explore the surgical anatomy of the human temporal bone. Participants on the course will perform dissections and practice surgery of the ear upon wet temporal bones. Each morning starts with an introductory talk. There will be lectures covering drilling techniques, radiology, anatomy, surgical techniques and management of the diseased ear. The rest of the day is spent under instruction with temporal bone specimens. A variety of dissections will be performed.
