YAGÜE, C. & RÉDONDO, J.M. 1995. A case study of turbulent parameters during the Antarctic winter. *Antarctic Science*, **7**, 421-433.

Measurements in the abstract of this paper represented as $m^{s^{-1}}$ should have read $m s^{-1}$. An overbar was omitted from equation 10. In figures 4b and 11b the vertical axis title was printed as K_m , it should have read K_n .

Book review. *Antarctic Science*, **8**, 111-112.

History and atlas of the fishes of the Antarctic Ocean. Please note the author of this book is Richard Gordon Miller not Robert Gordon Miller.
