Hibistat.[®] Return the trust.

Waterless, fast, effective antimicrobial protection.

Hibistat[®], a waterless alternative to liquid soap, provides rapid bactericidal action when routine hand washing is not possible or convenient. The alcohol + chlorhexidine gluconate (CHG) formula provides immediate and *persistent* activity. Hibistat[®] has a moisturizing formula which allows for multiple daily uses. Portable and convenient, Hibistat[®] may contribute to increased hand washing compliance rates, as well as confidence in personal and patient protection.

To find out more, call **1-800-843-8497** today.

Online learning program
(available 24/7)

Competitive core benefits
(begin on your 31st day)

Chance to expand your horizons
(starts when you do)

Tenet. Just Bring Yourself.

From our innovative .edu online learning program to our comprehensive benefits package, one thing is clear. **Queen of Angels-Hollywood Presbyterian Medical Center**, a centrally located, easily accessible 434-bed acute care facility, understands what it takes to succeed in today's healthcare climate. Whatever you need to grow as a professional, we'll do our best to provide. We look forward to hearing from you! All you need to bring is yourself.

MANAGER, Infection Control

Reporting to the Director of Performance Improvement, this position manages, studies, educates on all aspects of hospital functions related to surveillance, prevention, and control of infections for newborn, child, adolescent, adult, and geriatric patient populations. Coordinates classification and reporting of all patient, employee, and significant community acquired infections identified at the Medical Center. Requires broad knowledge of clinical and administrative requirements and accreditation/licensure standards.

We offer competitive salaries and a comprehensive benefits package that begins on the 31st day of employment, as well as free parking and a friendly work environment. For consideration, please apply in person or send your resume to: **QAHPMC, Human Resources Department, 1300 North Vermont Avenue, Los Angeles, CA 90027. Phone: (323) 913-4840. Fax: (323) 644-7613. An Equal Opportunity Employer

INFECTIOUS DISEASES INFECTION CONTROL

Indiana University Department of Medicine, Division of Infectious Diseases is recruiting for an Assistant/ Associate Professor; tenure, non-tenure or clinical track will be established in accordance with the applicant's credentials. This position will focus on building an Infection Control program in conjunction with the local VA and county hospitals, which are located on our campus. Successful candidates should be BC in internal medicine and BC/BE in infectious diseases and should demonstrate prior experience or training in hospital epidemiology. Three-year fellowship in Infectious Diseases required. At least 75% of the applicant's time will be spent in Infection Control.

For consideration, send a CV, letter of interest, statement of research interest, and three letters of reference to:

Dr. Stanley M. Spinola
Director
Division of Infectious Diseases
Department of Medicine
545 Barnhill Drive, EH 435
Indianapolis, IN 46202-5124

Indiana University is an Affirmative Action/Equal Opportunity Employer M/F/D. Minority women are encouraged to apply.

The **Mount Sinai School of Medicine** seeks applications for the position of **Director of Infection Control and Hospital Epidemiologist**. The position is being offered through the Division of Infectious Diseases, as a tenure track position with significant resources. The director will provide oversight for the hospital, medical school and faculty practice infection control programs and will provide leadership in the associated clinical, educational and research activities. The successful candidate will possess the appropriate clinical and administrative skills to oversee the daily activities of the Infection Control personnel as well as have a track record in developing a successful research program in the area of infection control. Qualified candidates must have an MD degree, board certification in internal medicine and BC/BE in Infectious Diseases and be eligible for licensure in NY State.

Letters of application including a CV should be sent by mail or electronically to:

Mary E. Klotman, MD
MOUNT SINAI SCHOOL OF MEDICINE
Department of Medicine
One Gustave L. Levy Place
Box 1090
New York, NY 10029
Fax: (212) 534-3240

INFECTION CONTROL COORDINATOR

Chicago area hospital has an excellent opportunity for an experienced RN to join them in this exciting role.

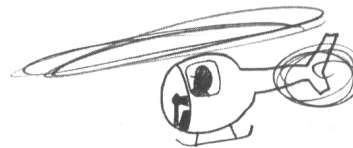

Here your efforts will be focused on:

- Data collection and analysis
- Communicating infection control related information to hospital staff, patients, and the community
- Developing and implementation of Infection Control education programs for patients and staff
- Evaluating, recommending, and initiating product purchases and control measures to minimize the spread of communicable disease within the hospital

Qualified applicants must be an RN; and possess 2 years directly related infection control background. Certification in infection control (CIC) through CDIC is preferred.
