VOLUME 36

1957

CAMBRIDGE
AT THE UNIVERSITY PRESS

1957

The Council of the Marine Biological Association wish it to be understood that they do not accept responsibility for the accuracy of statements published in this Journal, excepting when those statements are contained in an official report of the Council.

CONTENTS OF VOLUME 36

NUMBER 1, pp. 1-194, FEBRUARY 1957

NUMBER 2, pp. 195-444, JUNE 1957

NUMBER 3, pp. 445-724, NOVEMBER 1957

	PAGE
Report of the Council:	
1956-57	699
Income and Expenditure Account and Balance Sheet:	
1956-57	721
ABBOTT, B. C. and BALLANTINE, DOROTHY	
The toxin from <i>Gymnodinium veneficum</i> Ballantine	169
ALEXANDROWICZ, J. S. and WHITEAR, MARY	
Receptor elements in the coxal region of Decapoda Crustacea	603
ARMSTRONG, F. A. J.	
Phosphorus and silicon in sea water off Plymouth during 1955	317
The iron content of sea water	509
ARNOLD, D. C.	
The response of the limpet, <i>Patella vulgata</i> L., to waters of different salinities	121
BAGENAL, T. B.	
The breeding and fecundity of the Long Rough Dab <i>Hippoglossoides platessoides</i> (Fabr.) and the associated cycle in condition	339
Annual variations in fish fecundity	377
BALLANTINE, DOROTHY	
See ABBOTT, B. C. and BALLANTINE, DOROTHY	169
See PARKE, MARY and BALLANTINE, DOROTHY	643
BARRINGTON, E. J. W.	
The distribution and significance of organically bound iodine in the ascidian <i>Ciona intestinalis</i> Linnaeus	I
BOALCH, G. T.	
Marine algal zonation and substratum in Beer Bay, south-east Devon	519
BONEY, A. D.	
See MORTON, J. E., BONEY, A. D. and CORNER, E. D. S.	383
BURT, WAYNE V.	
On the attenuation of light in the sea	223
CALLAN, H. G.	
See ORIAN, A. J. E. and CALLAN, H. G.	129
CARLISLE, D. B.	
On the hormonal inhibition of moulting in decapod Crustacea. II. The terminal anecdysis in crabs	291
COLLYER, DOROTHY M.	
Viability and glycogen reserves in the newly liberated larvae of <i>Ostrea edulis</i> L.	335

	PAGE
CORNER, E. D. S. and RIGLER, F. H.	
The loss of mercury from stored sea-water solutions of mercuric chloride	449
CORNER, E. D. S. and SPARROW, B. W.	
The modes of action of toxic agents. II. Factors influencing the toxicities of mercury compounds to certain Crustacea	459
CORNER, E. D. S.	
See MORTON, J. E., BONEY, A. D. and CORNER, E. D. S.	383
CURRIE, R. I. and FOXTON, P.	
A new quantitative plankton net	17
DALES, R. PHILLIPS	
The feeding mechanism and structure of the gut of <i>Owenia fusiformis</i> delle Chiaje	81
Preliminary observations on the role of the coelomic cells in food storage and transport in certain polychaetes	91
Some quantitative aspects of feeding in sabellid and serpulid fan worms	390
DENTON, E. J. and WARREN, F. J.	
The photosensitive pigments in the retinæ of deep-sea fish	651
EVANS, FRANK	
Sea currents off the Northumberland coast	493
FISHER, L. R., KON, S. K. and THOMPSON, S. Y.	
Vitamin A and carotenoids in certain invertebrates. VI. Crustacea: Penaeidea	501
FOXTON, P.	
See CURRIE, R. I. and FOXTON, P.	17
FREEMAN, R. F. H. and RIGLER, F. H.	
The responses of <i>Scrobicularia plana</i> (da Costa) to osmotic pressure changes	553
GEORGE, E. A.	
A note on <i>Stichococcus bacillaris</i> Naeg. and some species of <i>Chlorella</i> as marine algae	111
GOODING, R. U.	
On some Copepoda from Plymouth, mainly associated with invertebrates, including three new species	195
GOTTO, R. V.	
The biology of a commensal copepod, <i>Ascidicola rosea</i> Thorell, in the ascidian <i>Corella parallelogramma</i> (Müller)	281
GREEN, J.	
The growth of <i>Scrobicularia plana</i> (da Costa) in the Gwendraeth estuary	41
GREEN, J. E.	
See LLEWELLYN, J. and GREEN, J. E.	77
HART, T. J.	
Notes on practical methods for the study of marine diatoms	593
HARVEY, H. W.	
Bio-assay of nitrogen available to two species of phytoplankton in an off-shore water	157
HEPPER, B. T.	
Notes on <i>Mytilus galloprovincialis</i> Lamarck in Great Britain	33

CONTENTS OF VOLUME 36

vii

	PAGE
KABATA, Z.	
<i>Lernaecera obtusa</i> n.sp., a hitherto undescribed parasite of the haddock (<i>Gadus aeglefinus</i> L.)	569
KON, S. K.	
See FISHER, L. R., KON, S. K. and THOMPSON, S. Y.	501
LLEWELLYN, J.	
The larvae of some monogenetic trematode parasites of Plymouth fishes	243
LLEWELLYN, J. and GREEN, J. E.	
The occurrence at Plymouth of <i>Dictyocotyle coeliaca</i> Nybelin, 1941 (Trematoda: Monogenea)	77
MASON, JAMES	
The age and growth of the scallop, <i>Pecten maximus</i> (L.), in Manx waters	473
MORTON, J. E., BONEY, A. D. and CORNER, E. D. S.	
The adaptations of <i>Lasaea rubra</i> (Montagu), a small intertidal lamellibranch	383
NAYLOR, E.	
The occurrence of <i>Idotea metallica</i> Bosc in British waters	599
NICOL, J. A. C.	
Luminescence in polynoids. II. Different modes of response in the elytra	261
Luminescence in polynoids. III. Propagation of excitation through the nerve cord	271
Spectral composition of the light of polynoid worms	529
Spectral composition of the light of <i>Chaetopterus</i>	629
NOBLE, ELMER R.	
Seasonal variations in host-parasite relations between fish and their Protozoa	143
ORIAN, A. J. E. and CALLAN, H. G.	
Chromosome numbers of gammarids	129
PARKE, MARY and BALLANTINE, DOROTHY	
A new marine dinoflagellate: <i>Exuviaella mariae-lebouriae</i> n.sp.	643
POWELL, H. T.	
Studies in the genus <i>Fucus</i> L. I. <i>Fucus distichus</i> L. emend. Powell	407
Studies in the genus <i>Fucus</i> L. II. Distribution and ecology of forms of <i>Fucus distichus</i> L. emend. Powell in Britain and Ireland	663
RANADE, M. R.	
Observations on the resistance of <i>Tigriopus fulvus</i> (Fischer) to changes in temperature and salinity	115
RIGLER, F. H.	
See CORNER, E. D. S. and RIGLER, F. H.	449
See FREEMAN, R. F. H. and RIGLER, F. H.	553

ABSTRACTS OF MEMOIRS

RECORDING WORK DONE AT THE PLYMOUTH LABORATORY

A new muscle preparation for the study of optical changes during contraction. By B. C. Abbott and J. Lowy	191
Resting tension in snail muscle. By B. C. Abbott and J. Lowy	191
Ciliary feeding mechanisms of brachiopods. By D. Atkins.	192
Observations on luminescence in sea pens (Pennatulacea). By D. Davenport and J. A. C. Nicol	192
Systematics of the marine-bug. By Dennis Leston	193
Pressure receptors in the fins of the dogfish <i>Scylliorhinus canicula</i> . By Otto Lowenstein	193
Nervous regulation of luminescence in the sea pansy <i>Renilla köllikeri</i> . By J. A. C. Nicol	193
Observations on the anatomy and mode of life of <i>Lasaea rubra</i> (Montagu) and <i>Turtonia minuta</i> (Fabricius). By E. Oldfield	194
Notes on the nervous system in the stomatopoda. IV. Muscle receptor organs. By J. S. Alexandrowicz	433
The eyes and the photonegative behaviour of <i>Nephtys</i> (Annelida, Polychaeta). By R. B. Clark	433
Deep water movements in the north Atlantic as a link between climatic changes around Iceland and biological productivity of the English Channel and Celtic Sea. By L. H. N. Cooper	434

	PAGE
Hypotheses connecting fluctuations in Arctic climate with biological productivity of the English Channel. By L. H. N. Cooper	434
Demonstration of small-scale water-currents by means of milk. By D. J. Crisp and A. J. Southward	435
La contamination des poissons et le problème des eaux polluées. By A. Guelin	435
Studies of serpulid tube formation. II. The calcium-secreting glands in the peristomium of <i>Spirorbis</i> , <i>Hydroides</i> and <i>Serpula</i> . By R. H. Hedley	436
Active transport of cations in giant axons from <i>Sepia</i> and <i>Loligo</i> . By A. L. Hodgkin and R. D. Keynes	436
Experiments on the injection of substances into squid giant axons by means of a micro-syringe. By A. L. Hodgkin and R. D. Keynes	437
Temperature and mackerel movements in the inshore waters of Torbay, Devonshire. By L. A. J. Jackman and G. A. Steven	437
Seasonal changes in the phytoplankton as indicated by spectrophotometric chlorophyll estimations 1952-53. By Pamela G. Jenkins	438
Colloidal properties of the mesogloea in species of <i>Leucosolenia</i> . By W. C. Jones	438
The intracellular calcium contents of some invertebrate nerves. By R. D. Keynes and P. R. Lewis	439
Evidence for a mechanoreceptive function of the ampullae of Lorenzini. By R. W. Murray	439
Physiological control of luminescence in animals. By J. A. C. Nicol	440
The nervous anatomy of the body segments of nereid polychaetes. By J. E. Smith	440
Red blood-cell antigens in some lower vertebrates. By Doreen E. Ashhurst	695
Toxic marine flagellates; their occurrence and physiological effects on animals. By Dorothy Ballantine and B. C. Abbott	695
The direct action of anterior pituitary extracts on the initiation of lactation in the rabbit. By D. B. Carlisle	696
Larvae of the British species of <i>Diogenes</i> , <i>Pagurus</i> , <i>Anapagurus</i> and <i>Lithodes</i> (Crustacea, Decapoda). By J. D. Macdonald, R. B. Pike and D. I. Williamson	696

BOOK REVIEWS

The Galathea Deep Sea Expedition. Described by members of the expedition and edited by A. F. Bruun, S. Greve, H. Mielche and R. Spärck	441
The American Arbacia and other sea urchins. By Ethel Browne Harvey	441
Eels: a biological study. By the late Léon Bertin	442
Allgemeine Meereskunde: eine Einführung in die Ozeanographie. By G. Dietrich	697

THE MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

THE ASSOCIATION was founded in 1884 to promote accurate researches leading to the advancement of zoological and botanical science and to an increase in our knowledge of the food, life, conditions and habits of British fishes. The work of the Association is controlled by a Council elected annually by its subscribing members.

Professor T. H. Huxley took the chair at the initial meeting held in the rooms of the Royal Society and was elected the first President. Among those present were Sir John Lubbock (afterwards Lord Avebury), Sir Joseph Hooker, Professor H. N. Moseley, Mr G. J. Romanes, and Sir E. Ray Lankester who, after Professor Huxley, was for many years president of the Association. It was decided that a laboratory should be established at Plymouth, where a rich and varied fauna is to be found.

The Plymouth Laboratory was opened in June 1888, and, since that date, a new library and further laboratory accommodation have been added.

The Association is maintained by subscriptions and donations from private members, universities, scientific societies and other public bodies; a generous annual grant has been made by the Fishmongers' Company since the Association began. Practical investigations upon matters connected with sea-fishing are carried on under the direction of the Council, and from the beginning a Government Grant in aid of the maintenance of the laboratory has been made; in recent years this grant has been greatly increased in view of the assistance which the Association has been able to render in fishery problems and in fundamental work on the environment of marine organisms. Accounts of the laboratory and aquarium and the scope of the researches will be found in Vol. 27 (p. 761) and Vol. 31 (p. 193) of this *Journal*.

The laboratory is open throughout the year and its work is carried out by a fully qualified research staff under the supervision of the Director. The names of the members of the staff will be found at the beginning of this number. Accommodation is available for British and foreign scientific workers who wish to carry out independent research in marine biology, physiology and other branches of science. Arrangements are made for courses for advanced students to be held at Easter, and marine animals and plants are supplied to educational institutions.

Work at sea is undertaken by two research vessels and by a motor boat, and these also collect the specimens required in the laboratory.

TERMS OF MEMBERSHIP

	<i>£</i>	<i>s.</i>	<i>d.</i>
Annual Members per annum	1	1	0
Life Members Composition fee	15	15	0
Founders	100	0	0
Governors	500	0	0

Members of the Association have the following rights and privileges: they elect annually the Officers and Council; they receive the *Journal* of the Association free by post; they are admitted to view the laboratory at Plymouth, and may introduce friends with them; they have the first claim to rent a place in the laboratory for research, with use of tanks, boats, etc.; they have the privilege of occupying a table for one week in each year free of charge; and they have access to the books in the library at Plymouth.

All correspondence should be addressed to the Director, The Laboratory, Citadel Hill, Plymouth.
