# WEED SCIENCE

*Published six times a year by the Weed Science Society of America*

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

## Associate Editors (Assignment Year)

**Muthukumar V Bagavathiannan**, Texas A&M, College Station, TX 77843 (2015)

**Nathan Boyd**, University of Florida, Wimauma, FL 33598 (2021)

**Ian Burke**, Washington State University, Pullman, WA 99164 (2019)

**Carlene Chase**, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)

**Bhagirath Singh Chauhan**, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)

**Sharon Clay**, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)

**Timothy Grey**, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)

**Erin Haramoto**, University of Kentucky, Lexington, KY 40506 (2020)

**Prashant Jha**, Iowa State University, Ames, IA 50011 (2017)

**Mithila Jugulam**, Kansas State University, Manhattan, KS 66506 (2019)

**Vipan Kumar**, Kansas State University, Hays, KS 67601 (2020)

**Ramon Leon**, Department of Crop and Soil Sciences, North Carolina State University, Raleigh, NC 27695 (2016)

**Sara Martin**, Ag Canada, Ottawa, Canada (2018)

**Chris Preston**, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)

**Dean Riechers**, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)

**Hilary Sandler**, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)

**Debalin Sarangi**, University of Wyoming, Powell, WY 82435 (2020)

**Steven Seefeldt**, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)

**Patrick J. Tranel**, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)

**Te-Ming Paul Tseng**, Mississippi State University, Mississippi State, MS 39762 (2019)

**Martin M. Williams II**, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

**Chenxi Wu**, Crop Science Division, Plant Biotechnology – Research & Development, Bayer U.S., Chesterfield, MO 63017 (2019)

Tracy Candelaria, *Managing Editor*

## Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

*Weed Science* (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: [subscriptions\\_newyork@cambridge.org](mailto:subscriptions_newyork@cambridge.org) in USA, [journals@cambridge.org](mailto:journals@cambridge.org) outside USA.

*Weed Science* publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$441.00; UK £307.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

*Weed Science* published by the Weed Science Society of America.

Journal of the Weed Science Society of America

Volume 70 Number 1 January 2022

## EDITORIAL

Editorial for *Weed Science*, Volume 70 William K. Vencill ..... 1

## RESEARCH ARTICLES

- Characterization and inheritance of dicamba resistance in a multiple-resistant waterhemp (*Amaranthus tuberculatus*) population from Illinois. Lucas K. Bobadilla, Darci A. Giacomini, Aaron G. Hager and Patrick J. Tranel ..... 4
- Detecting the effect of ACCase-targeting herbicides on ACCase activity utilizing a malachite green colorimetric functional assay. Suma Basak, Md. Jahangir Alam, Douglas Goodwin, James Harris, Jinesh D. Patel, Patrick McCullough and J. Scott McElroy ..... 14
- Mitotic-inhibiting herbicide response variation in goosegrass (*Eleusine indica*) with a Leu-136-Phe substitution in  $\alpha$ -tubulin. Eli C. Russell, John M. Peppers, Claudia Ann Rutland, Jinesh Patel, Nathan D. Hall, Audrey V. Gamble and J. Scott McElroy ..... 20
- Morphophysiological diversity and its association with herbicide resistance in *Echinochloa* ecotypes. Rui Liu, Vijay Singh, Seth Abugho, Hao-Sheng Lin, Xin-Gen Zhou and Muthukumar Bagavathiannan ..... 26
- Rapid necrosis II: physiological and molecular analysis of 2,4-D resistance in Sumatran fleabane (*Conyza sumatrensis*). Andrew R. S. de Queiroz, Carla A. Delatorre, Catarine Markus, Felipe R. Lucio, Paula S. Angonese and Aldo Merotto Jr ..... 36
- Sumatran fleabane (*Conyza sumatrensis*) resistant to PSI-inhibiting herbicides and physiological responses to paraquat. Jéssica F. L. Leal, Amanda dos S. Souza, Junior Borella, André Lucas S. Araujo, Ana Claudia Langaro, Ana Carolina Chapeta, Eduardo S. Amorim, Gabriela S. Silva, Sarah Morran, Luiz Henrique S. Zobiolo, Todd A. Gaines and Camila F. de Pinho ..... 46
- Differences in selectivity between bermudagrass and goosegrass (*Eleusine indica*) to low-rate topramezone and metribuzin combinations. John R. Brewer, Whitnee L. B. Askew and Shawn D. Askew ..... 55
- Mechanisms that may lead to high genetic divergence and to the invasive success of tall fleabane (*Conyza sumatrensis*; Asteraceae). Maycon Rodrigo Ruiz, Claudete Aparecida Mangolin, Rubem Silvério de Oliveira Jr, Rafael Romero Mendes, Hudson Kagueyama Takano, Tauana Gibim Eisele and Maria de Fátima P. S. Machado ..... 64
- Seed-shattering phenology at soybean harvest of economically important weeds in multiple regions of the United States. Part 3: Drivers of seed shatter. Lauren M. Schwartz-Lazaro, Lovreet S. Shergill, Jeffrey A. Evans, Muthukumar V. Bagavathiannan, Shawn C. Beam, Mandy D. Bish, Jason A. Bond, Kevin W. Bradley, William S. Curran, Adam S. Davis, Wesley J. Everman, Michael L. Flessner, Steven C. Haring, Nicholas R. Jordan, Nicholas E. Korres, John L. Lindquist, Jason K. Norsworthy, Tameka L. Sanders, Larry E. Steckel, Mark J. VanGessel, Blake Young and Steven B. Mirsky ..... 79
- Quantifying seed and establishment limitation to seedling recruitment of arable weeds: an example of barnyardgrass (*Echinochloa crus-galli*). Christian Selig, Friederike de Mol, Paula R. Westerman and Bärbel Gerowitt ..... 87
- Toward understanding the impact of nuisance algae bloom on the reduction of rice seedling emergence and establishment. Sara Ohadi, Guelta Laguerre, John Madsen and Kassim Al-Khatib ..... 95
- Germination ecology of wild mustard (*Sinapis arvensis*) and its implications for weed management. Aseemjot Singh, Gulshan Mahajan and Bhagirath Singh Chauhan ..... 103
- Strategies to terminate summer cover crops for weed management in no-tillage vegetable production in southeast Brazil. Roberto Botelho Ferraz Branco, Fernando de Carvalho, João Paulo Oliveira and Pedro Luis da Costa Alves ..... 112
- Impacts of long-term composted manure and straw amendments on rice-associated weeds in a rice-wheat rotation system. Pinglei Gao, Aimei Hong, Min Han, Minghan Song, Yunhui Duan, Haiyan Zhang, Yong Li, Yicheng Sun, Guojun Sun, Qigen Dai and Wei Ran ..... 120
