## Acknowledgements to *JINS* External Reviewers, 2014

---

The success of *JINS* as a scientific journal depends on thoughtful, honest, and prompt peer review. Such review would be impossible without the extensive help of colleagues. Dr. Rao and his Associate Editors are grateful to the selfless contributions of our Board of Consulting Editors and our principal, ad-hoc, and student reviewers. The following lists include individuals who contributed reviews between September 1, 2013 and November 30, 2014. Please note that, because of timing issues, a reviewer's name might not appear in this year's list either because s/he was acknowledged in a previous year or will be acknowledged in the forthcoming year.
