Guide To PHOTOCOPIED MATERIALS

The American Historical Association is preparing a *Guide to Photocopied Historical Materials in the United States and Canada*, under a grant from the Council on Library Resources, Inc. The *Guide* will be a desk reference book, paralleling the *Guide to Historical Literature*, that will tell where to find important bodies of microfilmed and other photocopied materials and how to use and procure them. It is expected to be published late in 1959.

The Association's Committee on Documentary Reproduction, with the assistance of an Advisory Committee of experts from the Library and Archival field, is supervising the collection of materials and editing. In this work the Archives section of the Canadian Historical Association is co-operating. The *Guide* will locate photocopied holdings of historical manuscripts by standard union list practices, according to traditional subject and period fields of history. This information is now being collected through co-operation with archives, libraries, and historical societies in both countries. Duplication of effort is currently avoided through the exchange of reports with the *Union List of Microfilms*. The method of preparing the text anticipates the possible issuance of supplements.

The Editor solicits the aid of historians in both countries in the discovery and accurate description of holdings of photocopied manuscripts wherever they may be. He welcomes information that will assist him in making the *Guide* as complete as possible. The Editor is Dr. Richard W. Hale, Jr.
