

British Journal of Nutrition

Published online by Cambridge University Press

BJN An International Journal of Nutritional Science

Volume 103 Number 8 28 April 2010

Published on behalf of The Nutrition Society by Cambridge University Press

ISSN 0007-1145

Aims and Scope

The *British Journal of Nutrition* is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialities involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The *British Journal of Nutrition* is published twice monthly by Cambridge University Press on behalf of The Nutrition Society.

The *British Journal of Nutrition* is available online to subscribers at journals.cambridge.org/bjn

Tables of contents and abstracts are available free at the same website.

Editor-in-Chief

P C Calder, *School of Medicine, University of Southampton, Southampton, UK*

Deputy Editors

F Bellisle, *INRA, University of Paris, Bobigny, France*

D R Jacobs Jr, *School of Public Health, University of Minnesota, Minneapolis, MN, USA*

R J Wallace, *Gut Health Programme, Rowett Research Institute, Aberdeen, UK*

S J Whiting, *College of Pharmacy and Nutrition, University of Saskatchewan, Saskatoon, Sask., Canada*

Reviews Editor

J C Mathers, *School of Clinical Medical Sciences, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Supplements Editor

C Seal, *School of Agriculture, Food and Rural Development, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Book Reviews Editor

O B Kennedy, *School of Food Biosciences, University of Reading, Reading, UK*

Editorial Board

J J B Anderson, *Chapel Hill, NC, USA*

J R Arthur, *Aberdeen, UK*

S B Astley, *Norwich, UK*

H Zdravics and C Isherwood (*Publications Officers*), C T Hughes (*Sub-editor*)

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its applications to the maintenance of human and animal health.

Application of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Tel: +44 (0)20 7602 0228, Fax: +44 (0)20 7602 1756, Email: office@nutsoc.org.uk

Contents

Meta-analysis

- Energy requirements of adult cats.
E. N. Bermingham, D. G. Thomas, P. J. Morris & A. J. Hawthorne 1083–1093

Short Communication

- Berries modify the postprandial plasma glucose response to sucrose in healthy subjects.
R. Törrönen, E. Sarkkinen, N. Tapola, E. Hautaniemi, K. Kilpi & L. Niskanen 1094–1097
- Increased meal frequency does not promote greater weight loss in subjects who were prescribed an 8-week equi-energetic energy-restricted diet.
J. D. Cameron, M.-J. Cyr & É. Doucet 1098–1101

Molecular Nutrition

- Ellagic acid inhibits lipopolysaccharide-induced expression of enzymes involved in the synthesis of prostaglandin E₂ in human monocytes.
S. Karlsson, E. Nånberg, C. Fjaeraa & J. Wijkander 1102–1109
- Grape antioxidant dietary fibre reduced apoptosis and induced a pro-reducing shift in the glutathione redox state of the rat proximal colonic mucosa.
M. E. López-Oliva, A. Agis-Torres, I. Goñi & E. Muñoz-Martínez 1110–1117

Metabolism and Metabolic Studies

- Native and microwaved bean and pea starch preparations: physiological effects on the intestinal ecosystem, caecal tissue and serum lipids in rats.
U. Krupa-Kozak, J. Juśkiewicz, M. Wronkowska, M. Soral-Śmietana & Z. Zduńczyk 1118–1126
- Metabolite fingerprinting of urine suggests breed-specific dietary metabolism differences in domestic dogs.
M. Beckmann, D. P. Enot, D. P. Overy, I. M. Scott, P. G. Jones, D. Allaway & J. Draper 1127–1138
- Effects of exercise on L-carnitine and lipid metabolism in African catfish (*Clarias gariepinus*) fed different dietary L-carnitine and lipid levels.
R. O. A. Ozorio, V. J. T. Van Ginneken, R. J. B. Bessa, M. W. A. Versteegen, J. A. J. Verreth & E. A. Huisman 1139–1150

Human and Clinical Nutrition

- Combined effects of endurance training and dietary unsaturated fatty acids on physical performance, fat oxidation and insulin sensitivity.
A. Boss, V. Lecoultrre, C. Ruffieux, L. Tappy & P. Schneiter 1151–1159
- The fatty acid compositions of erythrocyte and plasma polar lipids in children with autism, developmental delay or typically developing controls and the effect of fish oil intake.
J. G. Bell, D. Miller, D. J. MacDonald, E. E. MacKinlay, J. R. Dick, S. Cheseldine, R. M. Boyle, C. Graham & A. E. O'Hare 1160–1167
- Moderate Champagne consumption promotes an acute improvement in acute endothelial-independent vascular function in healthy human volunteers.
D. Vauzour, E. J. Houseman, T. W. George, G. Corona, R. Garnotel, K. G. Jackson, C. Sellier, P. Gillery, O. B. Kennedy, J. A. Lovegrove & J. P. E. Spencer 1168–1178
- Dietary antioxidant restriction affects the inflammatory response in athletes.
B. A. Plunkett, R. Callister, T. A. Watson & M. L. Garg 1179–1184
- Diet-induced acidosis: is it real and clinically relevant?
J. Pizzorno, L. A. Frassetto & J. Katzinger 1185–1194

Dietary Surveys and Nutritional Epidemiology

- Lifestyle and genetic determinants of folate and vitamin B₁₂ levels in a general adult population.
B. H. Thuesen, L. L. N. Husemoen, L. Ovesen, T. Jørgensen, M. Fenger & A. Linneberg 1195–1204
- Sex differences among Swedish adolescents in mother–child relationships in the intake of different food groups.
K. Vågstrand 1205–1211

Behaviour, Appetite and Obesity

- Oat β -glucan supplementation does not enhance the effectiveness of an energy-restricted diet in overweight women.
E. J. Beck, L. C. Tapsell, M. J. Batterham, S. M. Tosh & X.-F. Huang 1212–1222
- Diet quality and obesity in women: the Framingham Nutrition Studies.
D. M. Wolongevicz, L. Zhu, M. J. Pencina, R. W. Kimokoti, P. K. Newby, R. B. D'Agostino & B. E. Millen 1223–1229
- Anthropometric, metabolic, psychosocial and dietary factors associated with dropout in overweight and obese postmenopausal women engaged in a 6-month weight loss programme: a MONET study.
V. Messier, J. Hayek, A. D. Karelis, L. Messier, É. Doucet, D. Prud'homme, R. Rabasa-Lhoret & I. Strychar 1230–1235
