## OFFICERS AND COUNCIL 1996–1997

### PRESIDENT

Air Cdre D. F. H. Grocott, CBE, AFC

### VICE PRESIDENTS

Capt A. N. Cockcroft  
H. J. Agnew

### TREASURER

Air Cdre M. J-C. Burton, OBE

### CHAIRMAN OF THE TECHNICAL COMMITTEE

D. M. Page

### CHAIRMAN OF THE MEMBERSHIP & FELLOWSHIP COMMITTEE

Air Cdre N. Bonnor

### *Other Members of Council*

Mrs C. A. Bloom  
C. Chapman  
P. L. Cook  
Prof. P. N. Dilly, GM  
M. A. Gamester

W. B. Kendal  
P. E. G. Moore  
Cdr P. Le Pla, RN  
W. H. Sandford  
A. L. Wale

<b>Vehicle Navigation, Location and Control – Keynote Address</b>	1
STEVEN NORRIS, MP	
<b>The Highways Agency Approach to Traffic Management</b>	5
MEL G. QUINN	
<b>ROMANSE Public Transport Information Systems</b>	14
STEVEN BROWN	
<b>Collision Avoidance, Driving Support and Safety Intervention Systems</b>	27
SIMON P. GILLING	
<b>Dynamic Route Guidance: the Prospects for Establishing a Sustainable Business</b>	33
IAN CATLING AND RICHARD HARRIS	
<b>Transportation Command, Control, Communication and Information Systems (C<sup>3</sup>I) ‘Lifting the Lid of Pandora’s Box’</b>	41
AIR COMMODORE D. F. H. GROCOTT	
<b>Sailing Directions of the North Atlantic Viking Age (from about the year 860 to 1400)</b>	55
CAPTAIN SØREN THIRSLUND	
<b>Air Navigation Systems. Chapter 6. Navigation and the Pioneering Flights: Part I</b>	65
PHILIP STEELE	
<b>The River Danube. An Examination of Navigation on the River</b>	77
LT CDR R. W. COOPER	
<b>Pedro Nunes’ Discovery of the Loxodromic Curve (1537). How Portuguese Sailors in the Early Sixteenth Century, Navigating with Globes, had Failed to Solve the Difficulties Encountered with the Plane Chart</b>	85
W. G. L. RANGLES	
<b>A Tanker Navigation Safety System</b>	97
BRAD JUDSON	
<b>A New High Precision Wide Area DGPS System</b>	109
V. ASHKENAZI, C. H. J. CHAO, W. CHEN, C. J. HILL AND T. MOORE	
<b>A Fuzzy Autopilot Optimized Using a Genetic Algorithm</b>	120
ROBERT SUTTON AND GARETH D. MARSDEN	
<b>Forum</b>	132
<b>Record</b>	150
<b>Reviews</b>	151
<b>List of Corporate Members</b>	153
<b>Radio-Navigation’s Transition from Sail to Steam</b>	155
WALTER F. BLANCHARD	
<b>Reliability Performance in GPS Receivers and the Nature of Their Failures: Planning to Live with Realistic Failure Rates in Satellite Navigation System Receivers</b>	172
SARAH SHARKEY AND ROLF JOHANNESSEN	
<b>The FAA’s Local Area Augmentation System (LAAS)</b>	183
RAYMOND SWIDER, RONALD BRAFF AND VICTOR WULLSCHLEGER	
<b>Real-Time Differential GPS/GLONASS Trials in Europe Using All-in-View 20-Channel Receivers</b>	193
S. CAPACCIO, D. LOWE, D. M. A. WALSH AND P. DALY	
<b>Eurofix: Test Results of a Cost-Effective DGNSS Augmentation System</b>	209
G. W. A. OFFERMANS, A. W. S. HELWIG AND D. VAN WILLIGEN	
<b>Radionavigation at a Time of Decision</b>	224
PROFESSOR DAVID LAST	

<b>Traditional Aids to Navigation: The Next 25 Years</b>	234

# THE ROYAL INSTITUTE OF NAVIGATION

## *Aims and Objects*

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication.

The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs) which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The Institute publishes *The Journal of Navigation* three times a year. It contains papers which have been presented at meetings together with the ensuing discussion, other original papers, selected papers and reports from Special Interest Groups, and book reviews. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is co-ordinated with that of similar organizations in other countries.

## *Membership*

There are six classes of Membership of the Institute:

(1) HONORARY MEMBERS: Distinguished persons upon whom the Council may see fit to confer an honorary distinction.

(2) FELLOWS: Members, of at least three years' standing, holding certain qualifications laid down in the by-laws; these qualifications include having made a contribution of value to navigation.

(3) MEMBERS: Persons over twenty-one years of age who satisfy the Council of their interest in navigation.

(4) STUDENT MEMBERS: Persons under twenty-five years of age studying at a recognized school or university with a view to making navigation, or an allied interest, their career.

(5) CORPORATE MEMBERS: Organizations such as universities, navigation schools, government departments or companies, here and abroad, who are directly or indirectly interested in the science of navigation. Corporate Members are entitled to send representatives to all Institute meetings and to receive six copies of its publications. They are encouraged to take an active part in the Institute's work. Applications should be sent by letter addressed to the Director.

(6) RETIRED MEMBERS: Fellows or Members of 65 years of age or over who have paid no fewer than 6 annual subscriptions.

There is also Associateship of the Institute, which gives entitlement of membership to one Special Interest Group SIG, but not to receipt of the *Journal of Navigation*.

## *Subscriptions*

Annual subscriptions to the Institute are payable in advance as follows (prices are inclusive of VAT):

Members and Fellows	£70.00
Student Members	£15.00
Corporate Members	£516.30
Retired	£45.00

The Institute's financial year begins on 1 July. Members in any category who are elected after 1 January in any year are only due for one half of their subscription until 1 July, when the full subscription for the next year becomes due.
