

**ERRATUM**

Due to conversion problems, some figures in the article by Beets et al. (March 2000 issue, p. 3-16) have not been printed correctly. We refer the readers to our website (<http://www.nitg.nl/eng/products/pub/njg/index.shtml>) for better reproductions. Since Figure 5 (page 9) was not well readable in the journal, we provide here a better copy, and we kindly ask our readers to cover the old figure by the new one.
