Your DEAF patients' satisfaction assured with

“Radio-Aid”

The only audiometrically compensated
Valve Amplifier hearing aid.

WE CLAIM

that Radio-Aid provides the only system of scientifically prescribing hearing aids by which the medical practitioner can obtain an aid with the assurance that the specific conditions required in the apparatus will be met.

WE GUARANTEE

our claim and will refund in full the money paid for any instrument supplied on the instructions of a member of the Medical Profession if in his opinion the instrument proves unsuitable after a reasonable trial.

WE INVITE

Aurists and Doctors to try the effect of the Radio-Aid compensated amplifier on a patient, in order that we may convince them that the majority of deaf persons who have formerly been dissatisfied with hearing aids will benefit to a degree that may never have been expected.

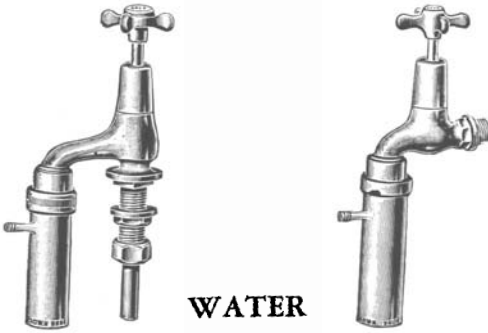

We shall be pleased to receive full particulars of any case, together with the patients' Audiograph Chart, or you may send patients to us for fitting.

PRESCRIBE DeVilbiss

No. 15 ATOMIZER

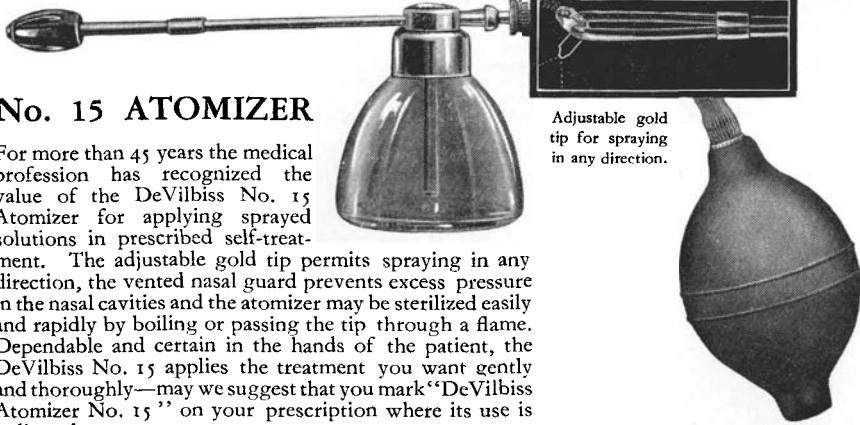

For more than 45 years the medical profession has recognized the value of the DeVilbiss No. 15 Atomizer for applying sprayed solutions in prescribed self-treatment. The adjustable gold tip permits spraying in any direction, the vented nasal guard prevents excess pressure in the nasal cavities and the atomizer may be sterilized easily and rapidly by boiling or passing the tip through a flame. Dependable and certain in the hands of the patient, the DeVilbiss No. 15 applies the treatment you want gently and thoroughly—may we suggest that you mark “DeVilbiss Atomizer No. 15” on your prescription where its use is indicated.

AEROGRAPH Co. Ltd., 43 Holborn Viaduct, London, E.C.1. Sole distributors of DEVILBISS products in the United Kingdom. Telephone: Holborn 1257 and 1258

Ventilating Grooves prevent excess pressure in Nasal Cavities.

Adjustable gold tip for spraying in any direction.
