

## Contents Volume 2 2002

### VOLUME 2 ISSUE 1

- Editorial** 1  
*A. Duxbury, D. Eddy*
- Guest Editorial**  
What is the point of role development for therapy radiographers in the UK? 3  
The case of breast simulation  
*J. Johnson*
- Original Articles**
- An evaluation of three tangential breast irradiation techniques in Hong Kong 9  
*M. Y. Y. Law, F. W. K. Cheung, V. W. C. Wu, V. W. C. Tsang, R. W. Y. Kwan,  
J. Y. T. Cheng, F. K. F. Wong*
- Dose volume histogram analysis for organs at risk when using 6 external beam 17  
techniques for radical prostatic irradiation  
*T. Haycocks, J. Mui, H. Alasti, C. Catton*
- Dose analysis of three 3-D conformal radiotherapy techniques used in booster 27  
treatment of nasopharyngeal carcinoma  
*V. W. C. Wu, Z. H. F. Chan, S. W. S. Kung, C. K. F. Chau, K. C. K. Fu, K. K. Y. Yip*
- Randomized study comparing the impact of a simulator with CT option to 37  
diagnostic CT on workload and patients comfort  
*P. Bijdekerke, V. Vinh-Hung, F. Nys, E. Vanepoele, J. Van de Steene, S. D'Haese,  
D. Verellen, G. Storme*
- Complementary therapy use amongst oncology patients: what are the messages 45  
for Cancer Centre Services? Part 1  
*S. G. Killigrew*

### VOLUME 2 ISSUE 2

- Editorial** 57  
*A. Duxbury, D. Eddy*
- Guest Editorial**  
Nuclear medicine in oncology 59  
*P. A. Griffiths*
- Original Articles**
- Errors from field placement and organ motion during conformal radiotherapy 65  
for prostate cancer  
*J. Wu, T. Haycocks, H. Alasti, G. Ottewell, N. Middlemiss, M. Abdoell, P. Warde,  
A. Toi, C. Catton*

Intervention for acute radiotherapy induced skin reactions in cancer patients: the development of a clinical guideline recommended for use by the college of radiographers <i>E. Glean, S. Edwards, S. Faithfull, C. Meredith, C. Richards, M. Smith</i>	75
An innovative approach to palliative care within a radiotherapy department <i>C. M. Blyth, J. Anderson, W. Hughson, A. Thomas</i>	85
Towards evidence based practice in prostate radiotherapy <i>K. Langmack, D. Routsis</i>	91
Complementary therapy use amongst oncology patients: what are the messages for Cancer Centre Services. Part 2 <i>S. G. Killigrew</i>	101
<b>Personal Development</b>	
Writing for publication – radiotherapy in practice <i>A. M. Duxbury</i>	111
 <b>VOLUME 2 ISSUE 3</b>	
<b>Editorial</b> <i>A. Duxbury, D. Eddy</i>	115
<b>Original Articles</b>	
Tangential breast irradiation – optimising the technique <i>M. Cormack, J. Calcott, J. Gillies, J. MacLellan</i>	117
Improving the accuracy of localisation in the radiotherapy treatment of head and neck, and brain cancer: some initial findings <i>M. J. McJury, R. Nakielny, D. Levy, J. Lilley, J. Conway, M. H. Robinson</i>	125
Changing practice in the radiation treatment of non-Hodgkin's lymphoma <i>N. Mohammed, N. O'Rourke</i>	133
Dose analysis of boost treatment to parapharyngeal space of nasopharyngeal carcinoma using three-dimensional conformal radiotherapy <i>V. W. C. Wu, C. S. C. Tsang, F. H. K. Mak, J. C. H. Chan, K. M. W. Leung, H. W. Leung</i>	139
A comparison between two types of beam direction shell for the treatment of age related macular degeneration <i>R. Harris, P. Elder, K. Brock, N. Blackler, J. Glanfield</i>	147
Issues surrounding the localisation and planning of brain and head/neck tumours <i>N. Blackler</i>	161
The informed consent procedure from the patients' perspective. An observational study <i>K. Hoornstra, L. Verdouw, H. Struikmans, E.W. C. Ambaum</i>	169

## VOLUME 2 ISSUE 4

<b>Editorial</b>	177
<i>A. Duxbury, D. Eddy</i>	
<b>Original Articles</b>	
A pelvic positioning study comparing the set-up reproducibility of prone pelvic treatments for obese patients, with and without the use of a thermoplastic immobilisation shell	179
<i>R. Harris, F. Daniel, P. Elder, C. Luffman, C. Bowen, M. Casebow</i>	
Intensity modulated radiation therapy (IMRT) in the treatment of colo-rectal cancer: the influence of profile smoothing on the efficiency of delivery	189
<i>W. Laub, D. Yan, J. Robertson, A. Martinez</i>	
An assessment of the accuracy of tattoo marks in aligning treatment fields for pelvic radiotherapy	199
<i>J. Mowbray, D. E. Bonnett</i>	
The effect of the recommendation of two different physical activity strategies on fatigue experienced during radiotherapy	207
<i>D. M. Flinton, R. J. Thorne, S. Waller, N. Nelson N, P. Thapar-Francis, P. Cherry</i>	
A critical appraisal of the implementation of a 'gap' policy – five years experience in a department with one linear accelerator	215
<i>J. Crane</i>	
<b>Book Review</b>	
Radiotherapy Physics and Equipment	221
<b>Volume Contents</b>	223
<b>Author Index</b>	226
